- ILCON Art. IV, Sec. 3
- ILCON Art. XIV, Sec. 1

Proposes to amend the Legislature Article of the Illinois Constitution. Provides that a Representative District (for election of a member of the House of Representatives) need not be entirely within a single Senatorial District (for election of a member of the Senate, now referred to as a Legislative District). Provides that (i) the Senate redistricts Senatorial Districts by resolution adopted by a record vote of three-fifths of the members elected and (ii) the House of Representatives redistricts Representative Districts by resolution adopted by a record vote of three-fifths of the members elected (now, redistricting is by law). Eliminates the Legislative Redistricting Commission. Provides instead that if a Senatorial or Representative redistricting plan is not adopted by June 15 of the year following a federal decennial census year, then the State Board of Elections shall produce a redistricting plan using a computer program. Requires the State Board of Elections to designate its computer program by April 15. The computer program designated by the State Board of Elections must disregard specified data and must consider certain prioritized factors; the computer program shall otherwise produce districts in a random manner. Authorizes the House and Senate to designate different computer programs for their respective chambers; doing so requires adoption of a resolution by a three-fifths vote on or before June 15. Removes the requirement that actions concerning redistricting the House or Senate may be initiated only by the Attorney General. Increases the number of Representatives from 118 to 119. Proposes to amend the Constitutional Revision Article to make a change to conform nomenclature. Effective beginning with redistricting in 2011 and applies to members elected in 2012 and thereafter.

Resolves that all Illinois Standards Achievement Test and Prairie State Achievement Examination subject area testing that exceeds the requirements of the federal No Child Left Behind Act of 2001 be eliminated beginning with the 2002-03 school year, that Illinois will comply with the Act, that the State Assessment System Policy and Implementation Task Force be immediately established, and that the State Board of Education shall not adopt any rules pertaining to the Act's implementation prior to the task force's final report.

HOUSE AMENDMENT NO. 1.

Resolves that current testing under the Illinois Standards Achievement Test and Prairie State Achievement Examination shall be continued, that the State Board of Education shall not pursue activities designed to expand that testing without legislative approval, and that the State Board must make recommendations, in conjunction with the task force, designed to maximize federal moneys available under Public Law 107-110. Removes the provision that provides that Illinois will comply with Public Law 107-110 by implementing, beginning with the 2002-03 school year, testing of students in the subject areas of reading and mathematics once in grades 3-5, 6-9, and 10-12. Reduces the number of members on the task force to 17. Makes other changes.
