HOUSE RESOLUTIONS

The following resolutions were offered and placed in the Committee on Rules.

HOUSE RESOLUTION 722

Offered by Representative Ammons:

WHEREAS, Public Act 100-0465, the Evidence-Based Funding for Student Success Act, created the Professional Review Panel (PRP), a body that is responsible for continually evaluating the State's K-12 public school funding formula, the Evidence-Based Funding (EBF) Formula, to ensure that it is capturing the costs of providing a high-quality education to all students and to ensure that the formula is working as intended to make progress toward adequately and equitably funding all schools; and

WHEREAS, The Professional Review Panel is tasked with studying and reviewing topics related to the implementation and effect of Evidence-Based Funding, as assigned by a joint resolution or Public Act of the General Assembly or a motion passed by the State Board of Education; and

WHEREAS, The importance of continuous improvement within education cannot be overstated, and a commitment to continually working to increasing equity, even within an already equitable funding system, is critical to close opportunity and outcome gaps for Illinois students; and

WHEREAS, Public Act 101-0654 charged the Professional Review Panel with conducting research and presenting findings to ensure that (i) the Adequacy Target calculation under subsection (b) accurately reflects the needs of students living in poverty or attending schools located in areas of high poverty, (ii) racial equity within the Evidence-Based Funding formula is explicitly explored and advanced, and (iii) the funding goals of the formula distribution system established under this Section are sufficient to provide adequate funding for every student and to fully fund every school in this State; and

WHEREAS, To consider these issues, the PRP formed an ad-hoc committee that was comprised of diverse stakeholders, including educators, school and district leaders, education advocates, and members of the State Board of Education, and that met biweekly from April through December of 2021; and

WHEREAS, The PRP Ad-Hoc Committee dedicated considerable time, capacity, and expertise to conducting a robust review of evidence and facilitating rich discussion of the issues under its charge; and

WHEREAS, The findings included in the committee's final report include potential opportunities for addressing trauma, accounting for the needs of students living in concentrated poverty, and increasing racial equity within the education funding formula, all of which require further detailed analysis and financial modeling and merit additional future discussion; and

WHEREAS, The findings of the report call for additional study and presentation of findings related to the appropriate levels for re-enrolling and graduating high-risk high school students who have been previously out of school by December 31, 2022; and

WHEREAS, The findings of the report suggest that the task of exploring the potential to increase efficiency and to find cost savings within the school system to expedite the journey to a fully funded system would require further review by a committee of diverse stakeholders convened by the Illinois State Board of Education; and

WHEREAS, The availability of publicly accessible, high-quality information about how districts allocate and utilize funding received through the EBF formula is critical for understanding how districts are working to support historically underserved student groups and to increase equity within their districts, including closing resource gaps by student race/ethnicity, socioeconomic status, and English-learner status; and

WHEREAS, The Illinois State Board of Education is in the process of revising EBF spending plans that districts are required to submit to the agency on an annual basis and increasing the transparency of this information by transitioning to the inclusion of these plans in the public budget process by FY23; and

WHEREAS, The Professional Review Panel has diligently and with dedication executed their task and delivered a thorough and thoughtful report and findings; and

WHEREAS, ISBE has made a concerted effort to increase the value and public transparency of the information reported through districts' EBF spending plans; therefore, be it

RESOLVED, BY THE HOUSE OF REPRESENTATIVES OF THE ONE HUNDRED SECOND GENERAL ASSEMBLY OF THE STATE OF ILLINOIS, that in keeping with the spirit of the charge outlined in Public Act 101-0654, we direct the Professional Review Panel and Illinois State Board of Education to conduct the rigorous analysis and financial modeling required to evaluate the potential value, impact, and financial implications of implementing the findings in the PRP Ad-Hoc Committee's report related to adjusting the Evidence-Based Funding formula's calculations in order to more accurately reflect the costs of supporting students exposed to trauma and living in concentrated poverty (Charge B) as well as to close racial equity gaps in opportunity and outcomes (Charges C and H); this includes modeling options, including but not limited to those presented in the report for differentiating existing cost factors within and adding new cost factors to the formula's calculation of districts' Adequacy Targets in order to understand the implications for equity as well as the anticipated fiscal impact of said adjustments; this analysis is to be completed and shared by November 30, 2022; and be it further

RESOLVED, That we call on the Professional Review Panel to complete the study and development of findings related to re-enrolling students who have dropped out of school by the extended deadline included within the PRP Ad-Hoc Committee report of December 31, 2022; and be it further

RESOLVED, That we urge the Illinois State Board of Education to complete their revision of the district spending plans template and requirements and annually make all districts' spending plans publicly available on the Illinois State Board of Education's website starting with Fiscal Year 2023 by January 2023; and be it further

RESOLVED, That suitable copies of this resolution be delivered to the State Superintendent of Education, the Chair of the Illinois State Board of Education, and members of the Professional Review Panel.

HOUSE RESOLUTION 724

Offered by Representative Halbrook:

WHEREAS, The United States relies, and will continue to rely for many years, on gasoline, diesel, and jet fuel despite the recent focus on renewable and alternative sources of energy; and

WHEREAS, In order to fuel our economy, the United States will need more oil and natural gas, while also requiring additional alternative energy sources; and

WHEREAS, The United States currently depends on foreign imports for more than one half of its petroleum usage and is the largest consumer of petroleum in the world; U.S. dependence on overseas oil has created difficult geopolitical relationships, with potentially damaging consequences for our national security; and

WHEREAS, Oil deposits in the Bakken Reserves of Montana, North Dakota, and South Dakota are an increasingly important crude oil resource, representing an estimated 11 billion barrels of recoverable crude oil; there is not enough pipeline capacity for crude oil supplies from Montana, North Dakota, South Dakota, Oklahoma, and Texas to American refineries; and

WHEREAS, Canadian oil reserves contain an estimated 170 billion barrels of recoverable oil; Canada is the single-largest supplier of oil to the United States at four million barrels per day and has the capacity to significantly increase that rate; and

WHEREAS, The Keystone XL pipeline will, when completed, carry 700,000 barrels of North American crude oil to American refineries; and

WHEREAS, Construction of the project will create 120,000 jobs nationwide, including 20,000 in construction and manufacturing, create \$20 billion in economic growth, and generate millions of dollars' worth of government receipts; and

WHEREAS, Studies have found that increasing delivery of crude oil from Montana, North Dakota, South Dakota, and Alberta, as well as Texas and Oklahoma, to American refineries has the potential to substantially reduce our country's dependency on sources outside of North America; and

WHEREAS, Canada sends more than 99 percent of its oil exports to the United States, the bulk of which goes to Midwestern refineries, and oil companies are investing huge sums to expand and upgrade refineries in the Midwest and elsewhere to make gasoline and other refined products from Canadian oil derived from oil sands; the expansion and upgrade projects will create many new construction jobs and substantially add to the gross product of Illinois; and

WHEREAS, Ninety percent of the money used to buy Canadian oil will likely later be spent directly on U.S. goods and services in contrast with increasing the trade relationship with unstable regions; supporting the continued shift toward reliable and secure sources of North American oil is of vital interest to the United States and the State of Illinois; therefore, be it

RESOLVED, BY THE HOUSE OF REPRESENTATIVES OF THE ONE HUNDRED SECOND GENERAL ASSEMBLY OF THE STATE OF ILLINOIS, that we support the continued and increased development and delivery of oil derived from North American oil reserves to American and Illinois refineries; and be it further

RESOLVED, That we urge Congress to support continued and increased development and delivery of oil from Canada to the United States; and be it further

RESOLVED, That we urge approval of the Keystone XL pipeline project to ensure America's oil independence, improve our national security, reduce the cost of gasoline, create new jobs, and strengthen ties between the United States and Canada; and be it further

RESOLVED, That suitable copies of this resolution be delivered to the President of the United States, the United States Secretary of the Interior, the United States Secretary of Transportation, the Federal Energy Regulatory Commission, and all members of the Illinois Congressional Delegation.

HOUSE RESOLUTION 725

Offered by Representative Gabel:

WHEREAS, Building an Illinois that can thrive now and in the future requires a steady commitment to supporting the physical, mental, and emotional well-being of all of the State's residents; and

WHEREAS, Equitable strategies are needed to ensure that all residents have the supports at home and in their communities that build a well-being, buffer against negative experiences, foster resilience, and make it possible to thrive; and

WHEREAS, Trauma, which may include adverse childhood experiences and other experiences across the life-course, disrupts health and well-being, making it more difficult for people to reach their potential and participate fully in their communities; and

WHEREAS, The landmark Adverse Childhood Experiences (ACEs) Study identified a profound connection between poor health during a person's adulthood and ACEs, which include physical, emotional, and sexual abuse, physical and emotional neglect, and household stressors such as domestic violence, separation or divorce involving household members, substance abuse, untreated mental illness, or incarceration of a household member; and

WHEREAS, ACEs studies have also found a strong correlation between the number of ACEs and a person's risk for health and social outcomes that include cancer, cardiovascular disease, diabetes, smoking, substance abuse, depression, obesity, unplanned pregnancies, low birth weight, suicide attempts, workplace absenteeism, unemployment, lower educational achievement, and lower wages; and

WHEREAS, Individuals with six or more ACEs are at risk, on average, to live 20 years less than those individuals with zero ACEs; and

WHEREAS, Findings from the Illinois 2017 Behavioral Risk Factor Surveillance Survey (BRFSS) Illinois ACEs Response Collaborative found that almost 60% of non-institutionalized adults in Illinois say they had at least one ACE; this number equates to almost five million Illinois residents; approximately 16% of Illinois adults reported four or more ACEs; and

WHEREAS, BRFSS data also showed that approximately 20% of African American adults in Illinois report four or more ACEs, compared to 15% of white residents; and

WHEREAS, ACEs are not the only potentially traumatic experiences that can influence health across the lifespan; extensive research demonstrates that community experiences such as gun violence, lack of educational or economic opportunities, poor or unaffordable housing, and lack of community cohesion can have the same detrimental effects on later health outcomes in individuals as ACEs; and

WHEREAS, These adverse community experiences are the result of historical traumas, such as slavery and genocides, and subsequent systemic inequities and oppression, such as racism; racism, which can include power inequalities, prejudices, stereotypes, discrimination, beliefs, and a systemic lack of access to essential supports including healthcare, has been directly linked to reduced physical and mental health in communities and individuals; and

WHEREAS, As a result of these historical traumas and subsequent systemic inequities, Black and Latinx residents in Illinois are more likely to live in neighborhoods with restricted access to essential resources such as education and economic opportunities, healthy food choices, safe and affordable housing, and behavioral and physical healthcare; like adverse childhood experience, these have all been linked to health and social outcomes that include reduced life expectancy, higher rates of infant and maternal mortality, high rates of asthma, higher rates of lead poisoning, and higher vulnerabilities to public health pandemics, including COVID-19; and

WHEREAS, These health inequities have been compounded and exacerbated by the COVID-19 pandemic, which has disproportionately affected Black and Latinx communities in Illinois; Black and Latinx residents are more likely to contract and more likely to die from the disease than white residents; Black and Latinx Americans are also significantly more likely to have COVID-19 be a "major threat to their general health and well-being" than the overall population; and

WHEREAS, COVID-19 has exacerbated burnout, and its associated conditions such as secondary trauma and compassion fatigue have affected those in the health care, education, human service, and other community supporting workforces; and

WHEREAS, Immigrant and refugee populations have been under the additional strain of stigmatizing rhetoric and an immigration system that fosters fear, mistrust, isolation, and injustice; and

WHEREAS, Robust research demonstrates that positive supports and experiences, such as stable and nurturing relationships and equitable access to food, housing, health care, financial resources, and other fundamentals of lifelong health and well-being can buffer against the effects of adversity and build resilience; and

WHEREAS, Resilience, the capacity to adapt and thrive in the face of adversity through strengths-based methods, can be built in individuals throughout the lifespan through trauma-informed, healing-centered care principles and practices such as trustworthiness and reliability, establishing physical and emotional safety, and providing opportunities for empowered decision-making; and

WHEREAS, Trauma-informed, healing-centered care is not a therapy or an intervention but is a principle-based, culture change process aimed at recognizing strengths and resiliency as well as helping people who have experienced trauma heal; and

WHEREAS, Implementing trauma-informed policies and practices mitigates the effects of workforce burnout, improves provider well-being, and leads to better outcomes for patients, students, and people engaged in human service and other community-supporting organizations; and

WHEREAS, Healthy and thriving communities are also fostered through these same trauma-informed, healing-centered, resilience-building principles; and

WHEREAS, It has been shown to be cost effective and sustainable to build programs and policies that foster positive experiences and are dedicated to the prevention and mitigation of traumatic experiences and their potential effects on physical and mental well-being and health, particularly in childhood; and

WHEREAS, This can be seen in allocated resources, as well as the creation of policies that acknowledge trauma and its effects on the health of individuals and communities, and how historical and contemporary systemic oppression may lead to potentially traumatic events such as adverse childhood experiences and adverse community experiences; and

WHEREAS, Applying a trauma-informed and healing-centered framework to the development and implementation of public policies has the potential to create sustainable, scalable change; and

WHEREAS, The State of Illinois has previously recognized the impact of ACEs on its residents' health and how trauma-informed, healing-centered principles, policies, and practices can prevent and mitigate the adverse health outcomes associated with trauma, such as Trauma-Informed Awareness Day in 2019, 2020, and 2021, the passage of the Children of Incarcerated Parents Bill of Rights, and the creation of the Whole Child Task Force introduced by the Illinois Legislative Black Caucus, as well as local resolutions recognizing Trauma-Informed Awareness Day in communities such as Winnebago County and the City of Chicago; and

WHEREAS, These same trauma-informed, healing-centered principles, policies, and practices must also recognize the detrimental effect that systemic oppressions such as racism can have on the health of individuals and communities and how these are, in fact, traumatic experiences with the same potential adverse health outcomes as ACEs; and

WHEREAS, The COVID-19 pandemic has made these systemic inequities more apparent and impactful, and a comprehensive response must recognize the role of racism and other oppressions in contraction of the disease, patient outcomes, and vaccine and treatment distribution; and

WHEREAS, The State's commitment to the support of a trauma-informed Illinois must be expanded to include recognition of the role that systemic policies and oppression have played in the creation and impact of trauma and communities; and

WHEREAS, This recognition must include a racially-just and healing-centered approach with an acknowledgment of the additional potential burden of trauma faced by Black and Latinx residents in Illinois and the United States; and

WHEREAS, The inclusion of recognizing the issue of systemic oppression and its impact on the creation of historical, community, and individual trauma will allow for a more thorough and effective response to reduce and eliminate health disparities in Illinois; and

WHEREAS, A trauma-informed, healing-centered Illinois can work to dismantle these systemic inequities and address the effects of racism and poverty, while working to prevent continued disparities; and

WHEREAS, This expanded definition of a trauma-informed, healing-centered Illinois enhances the ability of individuals and communities to adapt, cope, and thrive, including during difficult times, supporting the physical and mental well-being of everyone in Illinois; therefore, be it

RESOLVED, BY THE HOUSE OF REPRESENTATIVES OF THE ONE HUNDRED SECOND GENERAL ASSEMBLY OF THE STATE OF ILLINOIS, that we declare May 25, 2022 as Trauma-Informed Awareness Day in the State of Illinois to highlight the impact of trauma and the importance of prevention of adversity and fostering individual and community resilience through trauma-informed, healing-centered care; and be it further

RESOLVED, That we encourage members of the General Assembly and their staff to incorporate trauma-informed principles, such as safety, trustworthiness, collaboration, strengths-based approaches, and social justice, into the policymaking process; and be it further

RESOLVED, That we encourage all officers, agencies, and employees of the State of Illinois whose responsibilities include individuals throughout the life course and communities, including the Office of the Governor, the State Board of Education, the Department of Human Services, the Department of Children and Family Services, the Department of Public Health, the Department of Juvenile Justice, and Department of Corrections to become informed regarding well-documented, short-term, long-term, and multi-generational impacts of adverse childhood experiences, toxic stress, systemic racism, and other potentially traumatic experiences for children, adults, and communities and to become aware of and implement evidence-based and racially-just, trauma-informed, healing-centered care practices, tools, and interventions that promote positive experiences and racial justice to build resilience in individuals and communities so that they will be able to maximize their well-being and thrive.

HOUSE RESOLUTION 730

Offered by Representative Costa Howard:

WHEREAS, For over 100 million Americans, boating continues to be a popular recreational activity; from coast to coast, and everywhere in between, people are enjoying time together boating, sailing, paddling, and fishing; and

WHEREAS, Safe boating begins with preparation; the Coast Guard estimates that human error accounts for most boating accidents and that life jackets could prevent nearly 86 percent of boating fatalities; and

WHEREAS, Basic boating safety procedures, such as carrying lifesaving emergency distress and communications equipment, wearing life jackets, attending safe boating courses, participating in free boat safety checks, and staying sober when navigating, can help ensure boaters on America's coastal, inland, and offshore waters stay safe throughout the season; and

WHEREAS, On average, 650 people die each year in boating-related accidents in the U.S.; 75 percent of these are fatalities caused by drowning; and

WHEREAS, The vast majority of these accidents are caused by human error or poor judgment and not by the boat, equipment, or environmental factors; and

WHEREAS, A significant number of boaters who lose their lives by drowning each year would be alive today had they worn their life jacket; therefore, be it

RESOLVED, BY THE HOUSE OF REPRESENTATIVES OF THE ONE HUNDRED SECOND GENERAL ASSEMBLY OF THE STATE OF ILLINOIS, that we declare May 21-27, 2022 as "Safe Boating Week" in the State of Illinois and urge all those who boat to practice safe boating habits and wear a life jacket at all times while boating; and be it further

RESOLVED, That a suitable copy of this resolution be presented to the National Safe Boating Council as a symbol of our respect and esteem.
