

Illinois Commission on Equity and Inclusion

Nina M. Harris, Chairperson
Alexandria Wilson, Executive Director
115 S. LaSalle Street, 4th Floor
Chicago, IL 60603

February 28, 2025

Governor Pritzker, Members of the General Assembly, and the Bureau on Apprenticeship Programs and Clean Energy Jobs:

On behalf of the Illinois Commission on Equity and Inclusion (CEI), and per 30 ILCS 575/4f(4), I am pleased to present the annual Fiscal Year 2024 Service Category Report for the Business Enterprise Program for Minorities, Women, and Persons with Disabilities (BEP).

CEI continues focusing on strategic prioritization to meet its statutory objectives and support its BEP goals and objectives. CEI's mission is to maximize supplier diversity, equity, and inclusion by ensuring access to contracting opportunities and developing procedures and initiatives that make the procurement process inclusive, fair, and equitable while providing support, education, and mentorship. CEI's vision is to be a trailblazing leader in fostering a diverse, equitable, and inclusive procurement environment where supplier diversity, equity, and inclusion are celebrated, and opportunities are accessible to all, driving positive social impact and economic growth. CEI is dedicated to transformational community progress and fulfilling its statutory responsibilities while fostering collaboration with various internal and external stakeholders.

The State of Illinois (State) aims to advance the utilization of businesses owned by minorities, women, and persons with disabilities across various sectors, including goods and services such as insurance, investment management, information technology, accounting, architectural and engineering, and legal services. State agencies and public institutions of higher education are obligated to maximize the use of these businesses to the greatest extent while maintaining financial and fiduciary responsibility. Additionally, they must actively work to eliminate any obstacles that hinder the full participation of such businesses in procurement and contracting opportunities.

This report identifies the FY24 service category achievement of State agencies and public institutions of higher education and highlights the State's progress toward increasing the use of service firms owned by minorities, women, and persons with disabilities.

As we move forward, we remain steadfast in our commitment to fostering an inclusive, equitable procurement environment that reflects the diverse communities we serve, ensuring that every dollar spent contributes to positive social impact and economic growth.

Respectfully,

A handwritten signature in black ink that reads "Alexandria M. Wilson".

Alexandria M. Wilson
Executive Director

**Commission on Equity and Inclusion
Business Enterprise Program Service Category Report
Fiscal Year 2024**

Executive Summary

The Commission on Equity and Inclusion (CEI) submits this Fiscal Year 2024 (FY24) Service Category Report on behalf of the Business Enterprise Council for Minorities, Women, and Persons with Disabilities (BEP Council) to Governor Pritzker, the General Assembly, and the Bureau on Apprenticeship Programs and Clean Energy Jobs. This report identifies the service firms utilized by each State of Illinois (State) agency and public institution of higher education, outlines the efforts made to enhance the utilization of service firms owned by minorities, women, and persons with disabilities, and presents any recommendations provided by the BEP Council to encourage greater involvement of such service firms by State agencies and public institutions of higher education.

The data in this report was submitted to CEI by the purchasing entities subject to the Business Enterprise for Minorities, Women, and Persons with Disabilities Act (BEP Act) in their FY24 Annual BEP Expenditure Report submissions.

CEI continues to support, promote, and encourage the economic development of minorities, women, and persons with disabilities participating in State procurement as insurance, investment management, information technology, accounting, architectural and engineering, and legal services prime vendors and subcontractors through its Business Enterprise Program (BEP).

Insurance Services

When a State agency or public institution of higher education, excluding community colleges, awards a contract for insurance services, it should strive to utilize insurance brokers owned by minorities, women, and persons with disabilities, as defined by the BEP Act, for at least 20% of the total annual premiums or fees. Specifically, contracts representing no less than 11% of annual premiums or fees must be granted to minority-owned businesses. Contracts accounting for at least 7% of annual premiums or fees must be awarded to women-owned businesses. Contracts totaling at least 2% of the total annual premiums or fees must be given to businesses owned by persons with disabilities.

Investment Services

When a State agency or public institution of higher education, excluding community colleges, awards a contract for investment services, it must aim to use emerging investment managers owned by minorities, women, and persons with disabilities, as defined by the BEP Act, for a minimum of 20% of the total annual premiums or fees. Specifically, contracts representing at least 11% of annual premiums or fees must be awarded to minority-owned businesses. Contracts representing at least 7% of annual premiums or fees must be awarded to women-owned businesses. Contracts representing at least 2% of the total annual premiums or fees must be awarded to businesses owned by persons with disabilities. Additionally, it is also the aspirational goal for not less than 20% of the direct asset managers of the State funds to be minorities, women, and persons with disabilities.

The State's commitment to promoting diversity and inclusion within its investment management sector is clear. By setting aspirational goals for using emerging investment managers from underrepresented groups, the State aims to foster equitable access to opportunities and ensure fair representation in fund management. Furthermore, the emphasis on diversifying the direct asset managers of State funds reflects a strategic approach to cultivating a more inclusive investment landscape, which can lead to broader economic empowerment and growth within marginalized communities.

Professional Services

The professional services category comprises accounting, architectural, engineering, information technology, and legal services. When a State agency or public institution of higher education, excluding

community colleges, awards contracts for certain professional services, including information technology, accounting, architectural and engineering, and legal services, the aspirational goal is to use firms owned by minorities, women, and persons with disabilities, as well as lawyers from these groups, for at least 20% of the total dollar amount of State contracts.

This aspirational goal underscores the State's commitment to promoting diversity and inclusion across various professional service sectors. The State aims to foster equitable access to opportunities and ensure fair representation in the procurement process by setting aspirational goals for using businesses and lawyers from underrepresented groups. Additionally, these goals encourage agencies and public institutions of higher education to actively seek out and engage with diverse vendors and legal professionals, thereby contributing to a more inclusive and representative marketplace.

Community Colleges

When a community college awards contracts for insurance, investment, information technology, accounting, architectural and engineering, and legal services, there is an aspirational goal for the community college to use businesses owned by minorities, women, and persons with disabilities for at least 20% of the total contract spending for these services collectively. However, for investment services contracts, investment managers who are not considered emerging investment managers are not counted towards these diversity goals.

By setting aspirational goals and defining specific percentages for utilizing businesses owned by underrepresented groups, community colleges can promote diversity and inclusion within their procurement practices. Additionally, excluding investment managers who do not meet the criteria for emerging investment managers underscores the importance of ensuring that diversity goals are applied appropriately across different contracts and service providers.

This report must also include the names of the community colleges, along with the name and contact information of a designated individual at each college who will serve as the single point of contact for vendors owned by minorities, women, or individuals with disabilities.

Contracts

In FY24, 4,147 contract awards were subject to service category reporting. Of these, 366 were awarded to diverse service firms. In the previous fiscal year, 343 out of 3,634 service contracts were awarded to diverse service firms.

Despite making modest gains in FY24, the BEP and the BEP Council remain dedicated to addressing areas for improvement. This can be achieved through strategic partnerships and collaboration with various professional business organizations, chambers of commerce, community partners, and purchasing entities. By using data-driven decisions and stakeholder feedback, the BEP and the BEP Council can allocate resources to the most affected service categories. Along with enhancing supplier diversity, equity, and inclusion throughout the procurement process, we also stress the importance of mentorship opportunities. Initiatives like CEI's Mentor-Protégé Program (MPP) can empower small businesses to become prime contractors for future projects. Through ongoing collaboration and a shared commitment to our mission, we are confident that we can create meaningful and lasting change that will counteract the effects of underrepresentation in various professional service areas.
