CHAPTER REF: 215 ILCS 200/52 new

FISCAL IMPACT

HB 2584, House Amendment 1, would not change the amount of authorization for any type of State-issued bond, and, therefore, would not affect the level of State indebtedness.

SUBJECT MATTER: HB 2584, House Amendment 1, amends the Prior Authorization Reform Act and the Illinois Public Aid Code by providing that a health insurance issuer, the fee-for-service medical assistance program, and a Medicaid managed care organization may not require prior authorization for the following prescription drug types and their therapeutic equivalents approved by the United States Food and Drug Administration: human immunodeficiency virus pre-exposure prophylaxis and post-exposure prophylaxis medication or human immunodeficiency virus treatment medication. In provisions concerning utilization controls, provisions are removed concerning drugs for the treatment of HIV or AIDS. The Illinois Insurance Code is amended to include pre-PrEP HIV screening, sexually transmitted infection screening, kidney function analysis, routine laboratory testing, and routine provider visits as covered follow-up services in provisions requiring an individual or group policy of accident and health insurance to provide coverage for all abortifacients, hormonal therapy medication, human immunodeficiency virus pre-exposure prophylaxis, and post-exposure prophylaxis drugs approved by the United States Food and Drug Administration, and follow-up services related to that coverage. Effective on January 1, 2027.

ANALYSIS: HB 2584, House Amendment 1, would not change the amount of authorization for any type of State-issued bond, and, therefore, would not affect the level of State indebtedness.
