SPAR Reviewer Comments / Notes:	<p>According to the PPA, 42 units are currently occupied, but due to the poor conditions at the property the developer expects occupancy levels to continue to fall. They believe that only 31 households will remain during redevelopment. There are some red flags in this market area, such as stagnant population and losses in laborforce. There also appears to be a natural affordable rental market at the 60% AMI level. However, this project is existing and reflected in the ARUS number. The proposal is actually decreasing the number of units at this project which will lower IHDA's share and likely the ARUS 60% number. This project is currently in deplorable condition and very much in need of improvements so as to provide better living conditions for those who live there. Since the project is located in both a QCT and RECAP, CR documentation that meets IHDA thresholds will be required at application. In addition, we would like the sponsor to provide planned marketing efforts to overcome the likely negative impressions of the project within the community and among potential tenants. This information can be detailed within the required Site and Market Study or as an addendum to it. These are our conditions of approval.</p>

0.4	Day Care Facility	Nehemiah Child Care Development	2208 E Kansas St

Provide a general description of the public services and community amenities in the vicinity of the Project Site. Limit response to 1,500 characters.

The area surrounding the Property is well served with community ammenities. Matheny-Withrow Elementary School is directly across Old Rochester Road from the subject site and Washington Middle School and the adjacent Jaycee Park are walking distance. Tenants can find multiple restaurants and grocery stores as well as a bank, post office, and day care facility within one mile of the site. There is also a JCPenney, Kmart, and Walgreens just over one mile from the main entrance on 25th Street. The site is particularly well located to two newly-constructed health centers: Central Counties Health Centers and the Sangamon County Health Department – both of which offer preventative care, testing, and support services. Moreover, there is an SMTD bus stop adjacent to the subject site, providing access throughout Springfield and to the downtown area.

Characters remaining: 647

Incompatible Uses

Indicate if any of the following are located on or immediately adjacent to the Project Site:

No	Existing flood plain, wetlands, streams, ravines, drainage
No	Excessively steep slopes
No	High tension power lines
No	Sources of excessive lighting

Indicate if any of the following are located within 1/4 mile of the Project Site:

	Facility Name	Facility Address
No	Landfills, salvage yards, trash heap, dump pile, etc.	
No	Hazardous chemical or heavy manufacturing	
No	Railroad tracks	
No	Runway or runway clear zone or military airfield	
No	Treatment, storage, or disposal facility for hazardous, solid, or sewage waste	
No	Sources of noise that may exceed 70 decibels	
No	Prison or correctional facilities	
No	Sources of noxious odor	

If any incompatible uses are identified above, provide a general description of the incompatible use, its potential to impact the Project, and any efforts that will be undertaken to mitigate the impact. Limit response to 1,500 characters.

N/A - There are no incompatible uses located on or immediately adjacent to the Project Site.

SPAR Reviewer Comments / Notes:	<p>Centrally located right near downtown Peoria, the PMA for this development draws from throughout the nearby community. As drawn the market for these homes is extremely crowded with IHDA and affordable housing activity. Repositioning the Taft Homes property would further concentrate these numbers. Still, the area directly surrounding Taft Homes is changing and has seen recent city investment in public facilities. Now it is the Taft Homes site that is lagging behind the rest of the community around it. Poverty growth in the PMA has slowed, but is still well beyond the levels of the county and the state. Nearly half the people living in this market area are rent burdened and the number of available housing units in the PMA is unstable and decreasing. People living at Taft Homes are vulnerable and living in aged and substandard housing. SPAR approves this PPA for this reason - the reinvestment in this property will aid and benefit the people who live and rely on this housing. The Sponsor has submitted a request for Proximate Opportunity Area status - attempting to connect the Peoria site with the East Peoria Opportunity Area across the river. This request is denied as the river, lack of direct access, and sharing of community benefits such as recreation, city services, and school access is not shared across these two communities. Despite this denial, SPAR is approving this application on the condition that a ROBUST Community Revitalization Plan is submitted with the full application (only proximate OA information submitted with PPA). <u>A CR plan is required because the project is in a QCT and a R/ECAP</u> (It is also in a <u>Opportunity Zone</u>). SPAR believes that such a plan will link the reinvestment and reconstruction of Taft Homes with City endeavors to replan and build up the Taft area. SPAR expects such a plan to maximize CR points that will offset the denied Opportunity Area points. This 9% application is intended to be paired with a 4% allocation. There are a total of 134 units (this must be occupied units, as there are more units than this on site) that need to be repositioned. This PPA is only for 80 or so of the units. SPAR would vastly prefer to see ONE APPLICATION for all the units - thus assuring that the job gets done in one fell swoop. If MF is ok with the structure of this project, however, SPAR will defer to this preference.</p>

0.52	Day Care Facility	Methodist Family Child Care Center 415 NE St Mark Ct, Peoria, IL 61603

Provide a general description of the public services and community amenities in the vicinity of the Project Site. Limit response to 1,500 characters.

This site shows extremely strong linkages. It is immediately surrounded by parks, bus stops, retail stores, schools, and government buildings. It allows for easy access to a library, a full service grocery store, a hospital, and multiple day care facilities.

Characters remaining: 1242

Incompatible Uses

Indicate if any of the following are located on or immediately adjacent to the Project Site:

No	Existing flood plain, wetlands, streams, ravines, drainage
No	Excessively steep slopes
No	High tension power lines
No	Sources of excessive lighting

Indicate if any of the following are located within 1/4 mile of the Project Site:

	Facility Name	Facility Address
No	Landfills, salvage yards, trash heap, dump pile, etc.	
No	Hazardous chemical or heavy manufacturing	
Yes	Railroad tracks	Tazewell & Peoria Railroad (TZPR) runs along Illinois River, around 250 ft. from s
No	Runway or runway clear zone or military airfield	
No	Treatment, storage, or disposal facility for hazardous, solid, or sewage waste	
Yes	Sources of noise that may exceed 70 decibels	Tazewell & Peoria Railroad (TZPR) runs along Illinois River, around 250 ft. from s
No	Prison or correctional facilities	
No	Sources of noxious odor	

If any incompatible uses are identified above, provide a general description of the incompatible use, its potential to impact the Project, and any efforts that will be undertaken to mitigate the impact. Limit response to 1,500 characters.

The Tazewell & Peoria Railroad runs along the Illinois River to the south and down grade of the site. As a part of the environmental review conducted for the project, a noise study will be completed to confirm that our building materials adequately mitigate noise sources in exceedance of standards.

				Overall Housing Unit Change	1,908								

SPAR Reviewer Comments / Notes: Some concern over the loss of population and laborforce. However, this area appears to lack affordable rental as shown by the ARUS and cost burden numbers. There is also very limited IHDA or rent restricted housing in the area. The proposed will offer all 2BR and 3BR units and is close to employment. According to the USDA metric, the site lacks food access, so this documentation would be required at application. PLEASE NOTE: there is a very similar proposal in this round that is located just blocks away (Vale Crossing).

* All data collected from American Community Survey unless otherwise noted

** Rate calculations are based on available variables and certain traditional denominators were unavailable; Total Population was used as a denominator for these calculations

Provide a general description of the public services and community amenities in the vicinity of the Project Site. Limit response to 1,500 characters.

The amenities list above are all easily accessible from the project site. Cherry Valley has several parks and recreational facilities, shops, restaurants and larger groceries stores providing a variety of options for its residents. Rockford metro is less than one mile from the project site. Rockford Mass Transit District has a demand response ride program that operates in Cherry Valley and the surrounding communities to provide transportation to residents who may need it.

Public Services and Community Amenities: Provide a general description of the public services and community amenities in the vicinity of the Project Site.

The site is near banks, grocers, pharmacies, health services, post office, schools and other retail and commercial outlets. Most of these amenities are within 1 mile of the project site. The project site is about 1 mile from downtown Fairview Heights which offers a wide array of amenities that are desired by the project. Residents will have access to a clubhouse featuring a media center, club room, fitness center, and on-site management offices. A van service will be provided to residents as part of New Life's Transportation Ministry. This service provides residents with access to local food and grocery centers, pharmacies, and local healthcare providers. Tenant services will be offered at the clubhouse through New Life's service enrichment program. The Supportive Services Program is a voluntary program intended to assist the tenant in improving their earned income so that they can reduce their dependency on welfare assistance and rental subsidies. The program promotes self-sufficiency by partnering with an array of community organizations and businesses to offer workshops designed to increase housing stability, increased

Incompatible Uses

Indicate if any of the following are located on or immediately adjacent to the Project Site:

No	Existing Floodplain or Floodway, wetlands, streams, ravines, drainage
Minimal	Flood Factor Rating
No	Excessively steep slopes
No	High tension power lines
No	Sources of excessive lighting

Indicate if any of the following are located within 1/4 mile of the Project Site:

	Facility Name:	Facility Address:
No	Landfills, salvage yards, trash heap, dump pile, etc.	N/A
No	Hazardous chemical or heavy manufacturing	N/A
No	Railroad tracks	N/A
No	Runway or runway clear zone or military airfield	N/A
No	Treatment, storage, or disposal facility for hazardous, solid, or sewage waste	N/A
No	Sources of noise that may exceed 70 decibels	N/A
No	Prison or correctional facilities	N/A
No	Sources of noxious odor	N/A

Flood Risk Details:

If the site is located in a Floodplain or Floodway, provide specifics regarding what additional costs, if any, are associated with these site characteristics, and provide the project timeline for obtaining a Conditional Letter of Map Amendment from the Federal Emergency Management Agency (FEMA). If the Flood Factor rating for the Site is "Severe" or "Extreme," provide a narrative discussing planned site- or building-level mitigation measures, including cost and timing impacts.

CR Triggered:			Overall Housing Unit Change	6,000								
SPAR Reviewer Comments / Notes:	The proposal consists of 61 units targeting elderly households 62+ (one unit will be a management unit). 36 of the units will be PB subsidized. The PMA has experienced strong elderly growth and and shows some signs of gentrification such as increases in college graduates and median households incomes that are over the county and State. The project will target its one- and two-bedroom units to those earning at the 30%, 50% and 60% AMI levels. This PMA shows an overall lack of affordability among its rental units at all of these AMI's. In addition, IHDA and rent restricted housing is very limited and comprises only 2% of the renta units. SPAR recommends approval.

SPAR Reviewer Comments / Notes:

The market seems to be declining even though the population has risen slightly (3%). People unemployed increased even though only 2% of the population is unemployed, college graduates have not changed, people in poverty jumped to 19%, and the total vacant units increased by 83%. The market is naturally affordable with 67% of the rentals affordable to those earning 60% AMI. Due to some market concerns, a CR plan that meets the thresholds standards is required at application.

Incompatible Uses

Indicate if any of the following are located on or immediately adjacent to the Project Site:

- Existing flood plain, wetlands, streams, ravines, drainage
- Excessively steep slopes
- High tension power lines
- Sources of excessive lighting

Indicate if any of the following are located within 1/4 mile of the Project Site:

- Landfills, salvage yards, trash heap, dump pile, etc.
- Hazardous chemical or heavy manufacturing
- Railroad tracks
- Runway or runway clear zone or military airfield
- Treatment, storage, or disposal facility for hazardous, solid, or sewage waste
- Sources of noise that may exceed 70 decibels
- Prison or correctional facilities
- Sources of noxious odor

Facility Name	Facility Address

If any incompatible uses are identified above, provide a general description of the incompatible use, its potential to impact the Project, and any efforts that will be undertaken to mitigate the impact. Limit response to 1,500 characters.

SPAR Reviewer Comments / Notes:		PPA proposes 32 townhome style units for families (although one spot on the PPA form labels the project as elderly). The reviewer will note that this is the second phase of the project, and the PPA did not mention the performance of the 1st phase. This site is an area of opportunity as shown by its OA status and a QOLI score of 10. Population has grown both in general, as well as in the elderly segment. Rental occupancies are strong, poverty is below thresholds and IHDA market share is acceptable. The area appears to address affordability among its rental housing stock for those earning at or above 60% AMI. However, the lower AMI levels appear not addressed in the current rental housing stock. We will require that the Site and Market Study submitted with an application specifically address the performance of phase 1 of this project.									
* All data collected from American Community Survey unless otherwise noted			** Rate calculations are based on available variables and certain traditional denominators were unavailable; Total Population was used as a denominator for these calculations

Provide a general description of the public services and community amenities in the vicinity of the Project Site. Limit response to 1,500 characters.

The site is well positioned in Highland, within a half a mile from a hospital as well as a school. Proximity to IL-143 also provides access to several restaurants, retailers, as well as a Wal-Mart Super Center with a Pharmacy. Silver Lake Park is also located within a mile and a half of the site, with access to over 90 acres of recreation opportunities such as fishing, volleyball, and archery.

SPAR Reviewer Comments / Notes:

The market is naturally affordable with 74% of all rentals affordable to those making 60% AMI. The total population has decreased by 14%, people in the laborforce decreased by 14%. Some positives in the market are that unemployment has decreased by 36%, poverty decreased by 31% and the average median income increased by 14%. With occupied rental units decreasing by 37% and vacancies increasing by 61% the market study must show demand for additional units in the market. Conditional Approval.

* All data collected from American Community Survey unless otherwise noted

** Rate calculations are based on available variables and certain traditional denominators were unavailable; Total Population was used as a denominator for these calculations

Provide a general description of the public services and community amenities in the vicinity of the Project Site. Limit response to 1,500 characters.

While the Mount Carroll Community is below 2,000 people, the city offers a lot of amenities that are near the Shimer Square campus. Mt Carroll has multiple religious institution options, all located within half a mile of our site. It also offers multiple restaurant options such as: Subway, Dairy Queen, Henry's Double K, Molly's Kitchen and Bar, and Charlie's II. Point Rock Park is located within .7 miles and contains two baseball fields, while markets greatly towards our non-elderly development. For entertainment, The Mount Carroll Bowling Center and Mount Carroll Swimming Pool are both located within walking distance of our proposed development. Lastly, Shimer Square is located just north of Highway 52/64 which gives quick access to those who commute to/from work.

Incompatible Uses

Indicate if any of the following are located on or immediately adjacent to the Project Site:

Yes	Existing flood plain, wetlands, streams, ravines, drainage
No	Excessively steep slopes
No	High tension power lines
No	Sources of excessive lighting

Indicate if any of the following are located within 1/4 mile of the Project Site:

	Facility Name	Facility Address
No	Landfills, salvage yards, trash heap, dump pile, etc.	
No	Hazardous chemical or heavy manufacturing	
No	Railroad tracks	
No	Runway or runway clear zone or military airfield	
No	Treatment, storage, or disposal facility for hazardous, solid, or sewage waste	
No	Sources of noise that may exceed 70 decibels	
No	Prison or correctional facilities	
No	Sources of noxious odor	

If any incompatible uses are identified above, provide a general description of the incompatible use, its potential to impact the Project, and any efforts that will be undertaken to mitigate the impact. Limit response to 1,500 characters.

Flood plain is located near the property, but the property is not located within a flood plain. Property is elevated above Flood Plain

CR Triggered:		Overall Housing Unit Change	317									
SPAR Reviewer Comments / Notes:	The PMA has experienced strong population growth among elderly persons, poverty is low, rental occupancies are good and IHDA market share is acceptable. We approved a 9% LIHTC project in Rochelle last year that will add 30 units, but they will target a non-elderly population. This market shows a natural affordability at the 60% AMI level, but very few units target the 30% AMI segment. We recommend approval.

Public Services and Community Amenities: Provide a general description of the public services and community amenities in the vicinity of the Project Site.

Willis Avenue Lofts is located at 400, 410 and 420 Willis Avenue, Rochelle, IL and surrounded by other multi-family and single family residential buildings. The sites are all contiguous. Rochelle, IL is a small town 80 miles west of Chicago with a population of 9,574 at the 2010 census. All of the public services and community amenities are less than three miles from the site with a majority within one-and-a-half mile of the site. The site is within 0.25 miles of a park. The site is within 2 miles of a restaurant, health clinic, religious institution, a retail store, government services, a pharmacy, school, library and post office. The site is within three miles of a grocery store, bank and a day care facility.

Incompatible Uses

Indicate if any of the following are located on or immediately adjacent to the Project Site:

No	Existing Floodplain or Floodway, wetlands, streams, ravines, drainage
Minimal	Flood Factor Rating
No	Excessively steep slopes
No	High tension power lines
No	Sources of excessive lighting

Indicate if any of the following are located within 1/4 mile of the Project Site:

No	Landfills, salvage yards, trash heap, dump pile, etc.
No	Hazardous chemical or heavy manufacturing
No	Railroad tracks
No	Runway or runway clear zone or military airfield
Yes	Treatment, storage, or disposal facility for hazardous, solid, or sewage waste
No	Sources of noise that may exceed 70 decibels
No	Prison or correctional facilities
No	Sources of noxious odor

Facility Name:

Facility Address:

Flood Risk Details:

If the site is located in a Floodplain or Floodway, provide specifics regarding what additional costs, if any, are associated with these site characteristics, and provide the project timeline for obtaining a Conditional Letter of Map Amendment from the Federal Emergency Management Agency (FEMA). If the Flood Factor rating for the Site is "Severe" or "Extreme," provide a narrative discussing planned site- or building-level mitigation measures, including cost and timing impacts.

SPAR Reviewer Comments / Notes:	This PMA has experienced strong growth among its elderly population, IHDA market share is extremely low and affordable rental is limited at all AMI levels as shown by ARUS data. The sponsor submitted materials stating that a food market is permitted and will be constructed within the required radius of this project. However, we are going to require an update and more than a statement about this possible food market as a condition of approval.

Public Services and Community Amenities: Provide a general description of the public services and community amenities in the vicinity of the Project Site.

Lombard is a village in DuPage County, Illinois and is a suburb of Chicago. Lombard offers residents an urban suburban mix feel and most residents own their homes. In Lombard there are a lot of bars, restaurants, coffee shops, and parks. The public schools in Lombard are highly rated. Lombard is famous for Lilacia Park which is a public park enjoyed by the resident of the town in addition to being home to more than 200 varieties of lilacs. Lombard also has a vibrant downtown area that combines history and uniqueness with it's combination of shops and restaurants throughout the area. Yorktown Center is a major shopping mall in the area that is home to such retailers such as JC Penney, Von Maur, and TJ Maxx. Lombard's population is estimated to be 43,395 according to the US Census figures in 2010. This is an increase from the figures noted in 2004 which was 42,945.

Incompatible Uses

Indicate if any of the following are located on or immediately adjacent to the Project Site:

No	Existing Floodplain or Floodway, wetlands, streams, ravines, drainage
Minimal	Flood Factor Rating
No	Excessively steep slopes
No	High tension power lines
No	Sources of excessive lighting

Indicate if any of the following are located within 1/4 mile of the Project Site:

No	Landfills, salvage yards, trash heap, dump pile, etc.
No	Hazardous chemical or heavy manufacturing
Yes	Railroad tracks
No	Runway or runway clear zone or military airfield
No	Treatment, storage, or disposal facility for hazardous, solid, or sewage waste
No	Sources of noise that may exceed 70 decibels
No	Prison or correctional facilities
No	Sources of noxious odor

Facility Name:

Facility Address:

Lombard Metra Station	20 S. Main Street, Lombard, IL 60148

Flood Risk Details:

If the site is located in a Floodplain or Floodway, provide specifics regarding what additional costs, if any, are associated with these site characteristics, and provide the project timeline for obtaining a Conditional Letter of Map Amendment from the Federal Emergency Management Agency (FEMA). If the Flood Factor rating for the Site is "Severe" or "Extreme," provide a narrative discussing planned site- or building-level mitigation measures, including cost and timing impacts.

There is Minimal flood risk at the subject site.

Characters remaining: 1452

Incompatible Uses Details:

If any incompatible uses are identified above, provide a general description of the incompatible use, its potential to impact the Project, and any efforts that will be undertaken to mitigate the impact.

The railroad tracks located at the subject site's northern border are for the METRA Commuter trains serving Chicago and the Northwest suburbs and considered an amenity for a TOD development. In order to mitigate any potential noise issues the project will be using insulated window frames with double-pane glass installed with acoustic sealants.

		Overall Housing Unit Change		697								
SPAR Reviewer Comments / Notes:		Virден is a small community in Macoupin County. In this community/market area there are only 614 total rental units (down nearly 20% from 2010). Most of the housing constructed in Virден was constructed before 1980. This community is losing housing units and population and would not appear to need even 27 more units to address this need, if not for the age and quality of the on-the-ground housing. We have seen these units before, paired with a county wide redevelopment effort. This targeted redevelopment will focus on infill housing managed by the HA and the reviewer expects that these will be high quality units that will help to stabilize a tumultuous market with fewer renting opportunities and increasing rent-burden rates. Due to the size of the community, SPAR would make the approval contingent on a market study supporting the demand for the 27 units (though SPAR expects that this support will be proven) AND SPAR recommends, but does not require that the application explore community revitalization as an incentive towards scoring in the full application.										
* All data collected from American Community Survey unless otherwise noted		** Rate calculations are based on available variables and certain traditional denominators were unavailable; Total Population was used as a denominator for these calculations

Provide a general description of the public services and community amenities in the vicinity of the Project Site. Limit response to 1,500 characters.

The project site is located near the downtown area of Virden, IL which is 20 miles southwest of Springfield, IL. Virden has all essential amenities desired by the site. The site is near banks, grocers, multiple parks, swimming pool, pharmacy, schools, health services, churches, and other retail and commercial outlets. Most of these amenities are within 1 mile of the project site.

SPAR Reviewer Comments / Notes:

Market seems strong. Project appears to fit it perfectly as well. Total population growing very well, elderly growing in tandem. Strong economic indicators across the board. IHDA concentration right at the threshold, but the additional units will move it by less than 1%, so issue seems minor. Most importantly, demand should exist. Low rate of naturally affordable at all levels, which suggests a demand will exist for more affordability. Finally, site is in an opportunity area.

* All data collected from American Community Survey unless otherwise noted

** Rate calculations are based on available variables and certain traditional denominators were unavailable; Total Population was used as a denominator for these calculations

Public Services and Community Amenities: Provide a general description of the public services and community amenities in the vicinity of the Project Site.

DeVille Manor is located on the northern edge of Oswego. It is well within walking distance to all essential amenities. Public Transit - there are bus stops in Aurora, IL approximately 2 miles away from DeVille Manor. However, the Kendall Area Transit (KAT) services Oswego, and this property with it's curb-to-curb services.. IHDA Food Access tool indicates multiple grocery stores within proximity to DeVille Manor including the Jewel-Osco.
 Neighborhood Assets: Food Access - Jewel-Osco - 0.24 miles away; Health and Wellness - Jewel-Osco Pharmacy - 0.24 miles away; Education & Culture - Long Beach Elementary - 0.86 miles away; Retail - Blain's Farm & Fleet - 0.33 miles away; Services - BMO Harris Bank - 0.30 miles away.

SPAR Reviewer Comments / Notes:	Please note that the description area of the PPA form labels this as a non-elderly project, but the narrative area mentions that it is for elderly 55+. The reviewer used the elderly designation in this review. Within this market area the overall population has experienced a decline while the elderly segment 60+ has grown pretty significantly. IHDA market share is well below thresholds, as is rent restricted housing in general. This PMA shows quite a bit of natural affordability among its rental units, especially at or above 60% AMI. These upper levels are where the sponsor intends to target roughly 68% of the units. The need for these is not apparent. In addition, IHDA approved a 9% LIHTC project in Belleville that also targets an elderly population that closed in April 2020 (Lofts on the Square). According to recent data, this project is 99% constructed, but no leasing data is available. We will condition our approval upon the Site and Market Study that is submitted at application showing a need for the units at the 60% AMI and above levels, showing the 80% AMI rents to be a value in this market, and speaking specifically to the leasing experience of the Lofts on the Square project.										
* All data collected from American Community Survey unless otherwise noted			** Rate calculations are based on available variables and certain traditional denominators were unavailable; Total Population was used as a denominator for these calculations

Public Services and Community Amenities: Provide a general description of the public services and community amenities in the vicinity of the Project Site.

Trolley Circle is located on the western edge of Belleville. It is well within proximity to all essential amenities. Public Transit - there is a bus stop located right on the northeast corner of the Trolley Circle site. The bus stop is accessible and can be accessed from the project via existing sidewalks and sidewalks to be constructed as part of the development. IHDA Food Access tool indicates 2 grocery stores within proximity to Trolley Circle including the Schnucks. Neighborhood Assets: Food Access - McDonald's - 0.21 miles away; Education & Culture - St. Matthew United Methodist Church - 0.41 miles away; Mobility - Accessible Bus Line (MetroBus Line 14) - Bus Stop on NE corner of property at 7245 Westfield Plaza - 0.01 miles away; Services - Westchester Coin Laundry (7404 Westchester Dr, Belleville, IL 62223) - 0.42 miles away.

SPAR Reviewer Comments / Notes:

The market is stable despite increases in unemployment and people in poverty. Population has slightly increased, college graduates increased by 11%, income increased by 4%, vacancies shrank by 30%, and occupied rental units increased by 10%. The area is naturally affordable but the market rate units in the existing development are now going to be rent restricted. There is a large share of IHDA units in the area as well as total affordable units. The project is located in a QCT and an area of low food access and will require a CR plan that meets thresholds as well as a food access plan. Approve with conditions.

* All data collected from American Community Survey unless otherwise noted

** Rate calculations are based on available variables and certain traditional denominators were unavailable; Total Population was used as a denominator for these calculations

Provide a general description of the public services and community amenities in the vicinity of the Project Site. Limit response to 1,500 characters.

Island Terrace Apartments is located in the Woodlawn neighborhood of Chicago, Illinois, approximately 7 miles south of downtown and less than a mile west of the Lake Michigan shoreline. The neighborhood gives residents excellent access to public transportation, with I-94, I-90, the Green and Red "L" lines, and several Metra train stations conveniently nearby. Located on South Stony Island Avenue, the property is within one mile of The University of Chicago, the Museum of Science and Industry, and directly across the street from Jackson Park, a 500-acre park that will feature a Tiger Woods designed golf course and the Barack Obama Presidential Center. The area immediately surrounding the property is comprised of single-family homes, Mount Carmel High School (an all boys catholic high school) and other multifamily developments.

Incompatible Uses

Indicate if any of the following are located on or immediately adjacent to the Project Site:

No	Existing flood plain, wetlands, streams, ravines, drainage
No	Excessively steep slopes
No	High tension power lines
No	Sources of excessive lighting

Indicate if any of the following are located within 1/4 mile of the Project Site:

	Facility Name	Facility Address
No	Landfills, salvage yards, trash heap, dump pile, etc.	
No	Hazardous chemical or heavy manufacturing	
Yes	Railroad tracks	
No	Runway or runway clear zone or military airfield	
No	Treatment, storage, or disposal facility for hazardous, solid, or sewage waste	
No	Sources of noise that may exceed 70 decibels	
No	Prison or correctional facilities	
No	Sources of noxious odor	

If any incompatible uses are identified above, provide a general description of the incompatible use, its potential to impact the Project, and any efforts that will be undertaken to mitigate the impact. Limit response to 1,500 characters.

SPAR Reviewer Comments / Notes:

Overall the market seems stable. There is a small increase in total population (8%). Since this is an elderly development, it's a good sign that there is growth in population aged 60+ (66%). This is an existing, partially occupied IHDA development. The area is naturally affordable with 71% of the population able to afford rent at 60% AMI. The IHDA share is high but since this is an existing IHDA development it won't add to the share. The site is located in a QCT and will require a community revitalization plan that meets thresholds at the time of full application. Approve with conditions.

Provide a general description of the public services and community amenities in the vicinity of the Project Site. Limit response to 1,500 characters.

Rockford is the 3rd largest city in the state of Illinois and as such offers a variety of amenities and services to the project. The development is in the Downtown district of Rockford and as such has ample access to dining options, public transportation, parks, event centers, health care and other amenities one would expect from one of the largest cities in the state. Within a very tight radius are several fast food restaurants, a few sit down restaurants, a US Bank branch, a pharmacy, the hospital and a plethora of bus stops that access the entire city.

Public Services and Community Amenities

Indicate the distance, in decimal miles (ie. 1.25), of each of the following from the project site:

		<i>Facility Name</i>	<i>Facility Address</i>
0.9	Full Service Grocery Store	Whole Foods Market	760 Waukegan Rd, Deerfield, IL 60015
0.1	Fixed-Route Public Transportation	#471 PACE bus	Deerfield Road
0.49	Retail Store	Pet Supplies Plus	1634 Deerfield Road, Highland Park, IL 60035
0.56	Government Services	West Deerfield Township Supervisor	601 Deerfield Road, Deerfield, IL 60015
0.15	Recreational Facilities / Public Parks	Deerspring Park	200 Deerfield Road, Deerfield, IL 60015
0.87	Pharmacy	Walgreens	780 Waukegan Rd, Deerfield, IL 60015
0.47	School	Sherwood Elementary School	1900 Stratford Rd, Highland Park, IL 60035
0.27	Restaurant	New China	1855 Deerfield Rd, Highland Park, IL 60035
0.9	Hospital / Health Clinic	Midwest Center for Women's Healthcare	720 Osterman Avenue, Deerfield, IL 60015
0.1	Religious Institution	Zion Evangelical Lutheran Church	10 Deerfield Rd, Deerfield, IL 60015
0.9	Library	Deerfield Public Library	920 Waukegan Rd, Deerfield, IL 60015
0.9	Post Office	Deerfield Post Office	707 Osterman Avenue, Deerfield, IL 60015
0.7	Banking Institution	Chase Bank	770 Waukegan Rd, Deerfield, IL 60015
0.36	Day Care Facility	Safari Childcare	776 Red Oak Lane, Highland Park, 60035

Provide a general description of the public services and community amenities in the vicinity of the Project Site. Limit response to 1,500 characters.

The site is directly off Deerfield Road, a major arterial street in the North Shore with PACE bus #471 connecting residents to Highland Park and the Metra UP-North line, Deerfield and the Metra MD-North line, as well as Northbrook Court, a very large upscale shopping mall with over 300 stores. The Deerfield corridor is dominated by commercial retail, including small businesses, educational facilities and financial institutions. Additionally, the site is less than a mile from Skokie Highway which provides access to the Eden's Expressway and downtown Chicago. Amenities that are closest to the site include Deerspring Park, which has a pool and splash park run by the Park District, as well as the downtown Deerfield shopping district which includes a Whole Foods and numerous retail clothing stores, restaurants, and shops. The closest supermarket is within one mile of the site to the east on Deerfield Road. The nearest public school is less than half a mile away and the Village Hall, police department, post office, and other government services are located on Waukegan Road less than a mile west of the site.

Characters remaining: 379

Incompatible Uses

Indicate if any of the following are located on or immediately adjacent to the Project Site:

<input type="checkbox"/>	Yes	Existing flood plain, wetlands, streams, ravines, drainage
<input type="checkbox"/>		Excessively steep slopes
<input type="checkbox"/>		High tension power lines
<input type="checkbox"/>		Sources of excessive lighting

Indicate if any of the following are located within 1/4 mile of the Project Site:

	<i>Facility Name</i>	<i>Facility Address</i>
<input type="checkbox"/>	Landfills, salvage yards, trash heap, dump pile, etc.	
<input type="checkbox"/>	Hazardous chemical or heavy manufacturing	
<input type="checkbox"/>	Railroad tracks	
<input type="checkbox"/>	Runway or runway clear zone or military airfield	
<input type="checkbox"/>	Treatment, storage, or disposal facility for hazardous, solid, or sewage waste	
<input type="checkbox"/>	Sources of noise that may exceed 70 decibels	
<input type="checkbox"/>	Prison or correctional facilities	
<input type="checkbox"/>	Sources of noxious odor	

If any incompatible uses are identified above, provide a general description of the incompatible use, its potential to impact the Project, and any efforts that will be undertaken to mitigate the impact. Limit response to 1,500 characters.

The eastern boundary of the site is the West Fork of the North Branch of the Chicago River so we are determining what portions of the site, if any, are in the 100- or 500-year floodplain. We will work diligently with IHDA and the Village of Deerfield to site the buildings in such a way that the 100-year floodplain is not impacted. Since the site is so large, there is considerable room for enhanced storm water management and containment. Additionally, the proximity of the river will provide an amenity for residents living in the development or members of the community who want to enjoy the proposed conservation area.

SPAR Reviewer Comments / Notes:

Market appears to be a bit unhealthy. Population loss is a problem, leading to issues with vacancy and then growing inequality in the area. Nonetheless, cost burdened renter total is high and there is a need for units at 60% and 30% AMI. Unit mix is also quite strong, offering 2BR and 3BR units. IHDA concentration is low as well. Site is in a QCT.

Public Services and Community Amenities: Provide a general description of the public services and community amenities in the vicinity of the Project Site.

This site is located in central Harrisburg near many services and amenities. You cannot get much better access to services and jobs than what this site provides. There is an abundance of retail, banking, food access, education, etc. within a very short distance to the proposed developments. The tenants who take up residency here should be completely satisfied with what this site provides and have no trouble meeting their daily wants and needs.

0.25	Day Care Facility	Maxine's Day Care Center	606 Washington Ave, Alton 62002

Provide a general description of the public services and community amenities in the vicinity of the Project Site. Limit response to 1,500 characters.

The Project site is in close proximity to downtown Alton, within 1.5 miles of City Hall and nearby restaurants and shops and is in the Riverbend Enterprise Zone. The Alton riverfront is within a mile of the site- including the Alton Marina and Amphitheater, the National Great Rivers Museum, the historic Alton National Cemetery and the Clark Bridge. Four public schools are within a mile of the site, along with the Southern Illinois University Dental School. Nearby public facilities include Alton Memorial Hospital, Hayner Public Library, and Alton Police Headquarters. Public transportation is currently available at a bus transit stop on Washington Ave., and will be able to take residents to, amongst other locations, the Schnuck's grocery store referenced above. The City of Alton, along with Madison County is working to invest in its public infrastructure, housing stock and economic development efforts to further attract more people to Alton. Increased development will provide additional community resources and jobs to the area for residents of the Community of Sunnybrook to take advantage of.

Incompatible Uses

Indicate if any of the following are located on or immediately adjacent to the Project Site:

- Existing flood plain, wetlands, streams, ravines, drainage
- Excessively steep slopes
- High tension power lines
- Sources of excessive lighting

Indicate if any of the following are located within 1/4 mile of the Project Site:

- Landfills, salvage yards, trash heap, dump pile, etc.
- Hazardous chemical or heavy manufacturing
- Railroad tracks
- Runway or runway clear zone or military airfield
- Treatment, storage, or disposal facility for hazardous, solid, or sewage waste
- Sources of noise that may exceed 70 decibels
- Prison or correctional facilities
- Sources of noxious odor

Facility Name

Facility Address

If any incompatible uses are identified above, provide a general description of the incompatible use, its potential to impact the Project, and any efforts that will be undertaken to mitigate the impact. Limit response to 1,500 characters.

SPAR Reviewer Comments / Notes:

Market has some positive signs and some negative ones. The area likely has a need for affordability as the natural affordability is quite low, especially at 30% level. Lots of renters in this market area. Poverty is a good deal higher than county average. IHDA concentration just passed the threshold. Site is in QCT.

0.60	Day Care Facility	Champaign County Headstart

Public Services and Community Amenities: Provide a general description of the public services and community amenities in the vicinity of the Project Site.

The project site is located near the highly trafficked retail and commercial corridor of Market and Neil Streets right off of I-74. The site is next to the newly designed and redeveloped Bristol Park and is also near banks, grocers, pharmacies, health services, post office, schools and other retail and commercial outlets. Most of these amenities are within 1 mile of the project site. The site is 0.75 miles from Downtown Champaign which offers a wide array of amenities and entertainment options. Residents will have access to a media center, club room, fitness center, and on-site management offices. Nearby public transportation provides residents with access to local food and grocery centers, pharmacies, and local healthcare providers. Tenant services will be offered at the clubhouse through the Bristol Place service enrichment program. The Supportive Services Program is a voluntary program intended to assist the tenant in improving their earned income so that they can reduce their dependency on welfare assistance and rental subsidies. The program promotes self-sufficiency by partnering with an array of community organizations

Incompatible Uses

Indicate if any of the following are located on or immediately adjacent to the Project Site:

No	Existing Floodplain or Floodway, wetlands, streams, ravines, drainage
Minimal	Flood Factor Rating
No	Excessively steep slopes
No	High tension power lines
No	Sources of excessive lighting

Indicate if any of the following are located within 1/4 mile of the Project Site:

	Facility Name:	Facility Address:
No	Landfills, salvage yards, trash heap, dump pile, etc.	N/A
No	Hazardous chemical or heavy manufacturing	N/A
No	Railroad tracks	N/A
No	Runway or runway clear zone or military airfield	N/A
No	Treatment, storage, or disposal facility for hazardous, solid, or sewage waste	N/A
No	Sources of noise that may exceed 70 decibels	N/A
No	Prison or correctional facilities	N/A
No	Sources of noxious odor	N/A

Flood Risk Details:

If the site is located in a Floodplain or Floodway, provide specifics regarding what additional costs, if any, are associated with these site characteristics, and provide the project timeline for obtaining a Conditional Letter of Map Amendment from the Federal Emergency Management Agency (FEMA). If the Flood Factor rating for the Site is "Severe" or "Extreme," provide a narrative discussing planned site- or building-level mitigation measures, including cost and timing impacts.

SPAR Reviewer Comments / Notes:

The market here seems difficult. Massive population loss is the biggest worry, but high poverty and unemployment with minimal movement suggest a market that is struggling. However, IHDA maintains very low concentration in this area and despite the struggling market and old housing stock, natural affordability is not very high. With nearly two in three renters cost burdened, there likely will be demand for these units. Additionally these units will have subsidy, with the sponsor looking to have subsidy for every unit.

* All data collected from American Community Survey unless otherwise noted

** Rate calculations are based on available variables and certain traditional denominators were unavailable; Total Population was used as a denominator for these calculations

Provide a general description of the public services and community amenities in the vicinity of the Project Site. Limit response to 1,500 characters.

The site occupies a city block with an existing parking lot, play lot, and a park. The site is within 1 mile of the majority of all the amenities listed above, including a grocery store, multiple fixed-route public transportation stops, retail stores, recreational facilities, schools, restaurants, and a library, among others.

Incompatible Uses

Indicate if any of the following are located on or immediately adjacent to the Project Site:

No	Existing flood plain, wetlands, streams, ravines, drainage
No	Excessively steep slopes
No	High tension power lines
No	Sources of excessive lighting

Indicate if any of the following are located within 1/4 mile of the Project Site:

	Facility Name	Facility Address
No	Landfills, salvage yards, trash heap, dump pile, etc.	
No	Hazardous chemical or heavy manufacturing	
No	Railroad tracks	
No	Runway or runway clear zone or military airfield	
No	Treatment, storage, or disposal facility for hazardous, solid, or sewage waste	
No	Sources of noise that may exceed 70 decibels	
No	Prison or correctional facilities	
No	Sources of noxious odor	

If any incompatible uses are identified above, provide a general description of the incompatible use, its potential to impact the Project, and any efforts that will be undertaken to mitigate the impact. Limit response to 1,500 characters.

Not applicable.

Incompatible Uses

Indicate if any of the following are located on or immediately adjacent to the Project Site:

No	Existing Floodplain or Floodway, wetlands, streams, ravines, drainage
Minimal	Flood Factor Rating
No	Excessively steep slopes
No	High tension power lines
No	Sources of excessive lighting

Indicate if any of the following are located within 1/4 mile of the Project Site:

No	Landfills, salvage yards, trash heap, dump pile, etc.
No	Hazardous chemical or heavy manufacturing
Yes	Railroad tracks
No	Runway or runway clear zone or military airfield
No	Treatment, storage, or disposal facility for hazardous, solid, or sewage waste
No	Sources of noise that may exceed 70 decibels
No	Prison or correctional facilities
No	Sources of noxious odor

Facility Name:

Facility Address:

Norfolk Railroad	310 W., Lafayette Avenue, Jacksonville, IL

Flood Risk Details:

If the site is located in a Floodplain or Floodway, provide specifics regarding what additional costs, if any, are associated with these site characteristics, and provide the project timeline for obtaining a Conditional Letter of Map Amendment from the Federal Emergency Management Agency (FEMA). If the Flood Factor rating for the Site is "Severe" or "Extreme," provide a narrative discussing planned site- or building-level mitigation measures, including cost and timing impacts.

Not Applicable - Flood Risk Factor = Minimal

Characters remaining: 1456

Incompatible Uses Details:

If any incompatible uses are identified above, provide a general description of the incompatible use, its potential to impact the Project, and any efforts that will be undertaken to mitigate the impact.

Railroad Tracks: Norfolk Railroad operates a train that runs along the tracks that go through the City of Jacksonville.

		Overall Housing Unit Change	3,218									
SPAR Reviewer Comments / Notes:	This market area has had a very slight decline in overall population but strong growth among the elderly. ARUS numbers show limited affordability among the area rental at all levels. IHDA's market share is acceptable and rent restricted housing is no where near saturation. The project proposes a wide range of unit types (1-3BR) and will target 30%, 50%, 60% and 80% AMI levels. In addition, 9 of the units will be set aside as SRN. The City of McHenry has 110 persons on the SRN Wait List. We recommend approval.

Public Services and Community Amenities: Provide a general description of the public services and community amenities in the vicinity of the Project Site.

The site is located at the southeast corner of W. Crystal Lake Road and N. Mill Street in McHenry, IL. The project site is within a half mile of many of the amenities listed above, including restaurants, schools, various retail stores, and parks, among others. This is a Transit Oriented Development as it is situated along two separate bus routes with stops within a short walk of the site along with the McHenry Metra Station.

Incompatible Uses

Indicate if any of the following are located on or immediately adjacent to the Project Site:

No	Existing Floodplain or Floodway, wetlands, streams, ravines, drainage
Minimal	Flood Factor Rating
No	Excessively steep slopes
No	High tension power lines
No	Sources of excessive lighting

Indicate if any of the following are located within 1/4 mile of the Project Site:

No	Landfills, salvage yards, trash heap, dump pile, etc.
No	Hazardous chemical or heavy manufacturing
Yes	Railroad tracks
No	Runway or runway clear zone or military airfield
No	Treatment, storage, or disposal facility for hazardous, solid, or sewage waste
Yes	Sources of noise that may exceed 70 decibels
No	Prison or correctional facilities
No	Sources of noxious odor

Incompatible Uses Details:

If any incompatible uses are identified above, provide a general description of the incompatible use, its potential to impact the Project, and any efforts that will be undertaken to mitigate the impact.

As a Transit-Oriented Development, the subject property is located directly adjacent to the McHenry Metra Station. Units are separated from use via surface parking, landscaping, and garages. Additional steps will be taken during the selection of construction material to minimize the impact of train noise on residents. At the closest distance, the site is approximately 290 feet away from the train tracks.

SPAR Reviewer Comments / Notes:

This market seems very healthy. Indicators look positive across the board. Important to note that a lot of new rental units are coming online in the last two decades in a market with few renters. With the elderly population growing and a severe lack of affordability, the need and demand seems clear. IHDA concentration is low. Site is in an opportunity area and has a QOLI of 9.

Public Services and Community Amenities: Provide a general description of the public services and community amenities in the vicinity of the Project Site.

The site location has access to many public facilities such as fire stations, public libraries, parks, and forest preserves. In addition, the site is located on a well-commercialized corridor that is home to various restaurants, health and medical-related establishments, business offices, and retail stores that will satisfy all the needs of the seniors residing at Eve B. Lee Place.

Incompatible Uses

Indicate if any of the following are located on or immediately adjacent to the Project Site:

No	Existing Floodplain or Floodway, wetlands, streams, ravines, drainage
Minimal	Flood Factor Rating
No	Excessively steep slopes
No	High tension power lines
No	Sources of excessive lighting

Indicate if any of the following are located within 1/4 mile of the Project Site:

	Facility Name:	Facility Address:
No	Landfills, salvage yards, trash heap, dump pile, etc.	N/A
No	Hazardous chemical or heavy manufacturing	N/A
No	Railroad tracks	N/A
No	Runway or runway clear zone or military airfield	N/A
No	Treatment, storage, or disposal facility for hazardous, solid, or sewage waste	N/A
No	Sources of noise that may exceed 70 decibels	N/A
No	Prison or correctional facilities	N/A
No	Sources of noxious odor	N/A

Flood Risk Details:

If the site is located in a Floodplain or Floodway, provide specifics regarding what additional costs, if any, are associated with these site characteristics, and provide the project timeline for obtaining a Conditional Letter of Map Amendment from the Federal Emergency Management Agency (FEMA). If the Flood Factor rating for the Site is "Severe" or "Extreme," provide a narrative discussing planned site- or building-level mitigation measures, including cost and timing impacts.

According to the Flood Factor website, the site's risk of flooding is minimal with a 0.2% chance of water ever reaching the site. Please see website: https://floodfactor.com/zip/60048_fsid. The design and construction team has explored innovative strategies to ensure the project is compliant with the Lake County Watershed Ordinance and local code pertaining to stormwater management systems. We envision using a hybrid stormwater management system that will include native vegetation and potentially permeable pavers. The system will be designed to accommodate the City's stormwater detention, site runoff and volume control requirements. The selection of the hybrid system will be confirmed and engineered upon further study of on-site soils and the site's specific conditions.

Overall Housing Unit Change											
SPAR Reviewer Comments / Notes:		This is an area that has been experiencing a significant increase in the elderly population over the past ten years. Poverty is low and has been declining, IHDA has zero units in this market and the PMA also lacks rent restricted housing. ARUS data shows limited affordability among the area's rental units and rent burden is above average. The subject site is located in a 2023 QCT so will require CR documentation that meets IHDA thresholds at application. This is our condition for the project.									
* All data collected from American Community Survey unless otherwise noted		** Rate calculations are based on available variables and certain traditional denominators were unavailable; Total Population was used as a denominator for these calculations									

Site

For scattered Site projects complete the Site information for **each** Site separately using the additional Site pages below.

Incompatible Uses

Indicate if any of the following are located on or immediately adjacent to the Project Site:

No	Existing Floodplain or Floodway, wetlands, streams, ravines, drainage
Minimal	Flood Factor Rating
No	Excessively steep slopes
No	High tension power lines
No	Sources of excessive lighting

Indicate if any of the following are located within 1/4 mile of the Project Site:

No	Landfills, salvage yards, trash heap, dump pile, etc.
No	Hazardous chemical or heavy manufacturing
No	Railroad tracks
No	Runway or runway clear zone or military airfield
No	Treatment, storage, or disposal facility for hazardous, solid, or sewage waste
No	Sources of noise that may exceed 70 decibels
No	Prison or correctional facilities
No	Sources of noxious odor

Facility Name:

Facility Address:

Flood Risk Details:

If the site is located in a Floodplain or Floodway, provide specifics regarding what additional costs, if any, are associated with these site characteristics, and provide the project timeline for obtaining a Conditional Letter of Map Amendment from the Federal Emergency Management Agency (FEMA). If the Flood Factor rating for the Site is "Severe" or "Extreme," provide a narrative discussing planned site- or building-level mitigation measures, including cost and timing impacts.

NA

Characters remaining: 1498

Incompatible Uses Details:

If any incompatible uses are identified above, provide a general description of the incompatible use, its potential to impact the Project, and any efforts that will be undertaken to mitigate the impact.

We had some initial concerns regarding the proximity of the airport and the possible noise that would be generated by the truck traffic servicing the surrounding commercial uses. From our Environmental Engineer, Anderson Consulting: "Good news regarding the noise assessment for the Addison Green Meadow project. The noise contour map for O'Hare Airport illustrates that the subject site is over 3-miles away from the 65-decibels (dB) day night average sound level. The railroad sources are considered outside of the calculation range and the only busy road or highway within 1,000-feet is W. Lake Street to the south. Using traffic information from IDOT, the site is well under the 65-dB threshold (see attached). Hope this gives you some relief regarding potential noise issues." The full report shows a Combined DNL for all Road and Rail Sources of 56 dB. This rating is acceptable to HUD.

Overall Housing Unit Change											
CR Triggered:		if renter % is > set-aside avg and IHDA conc is > 15% then t									
SPAR Reviewer Comments / Notes:		Market area tracks to county pretty closely. Elderly population has risen in recent years, likely due to aging-in-place population. Nonetheless, the renter market nearly doubled in the last decade. With the cost-burdened level, it is likely that there are seniors demanding more affordable housing options, especially given the dearth of units available below 60% AMI.									
* All data collected from American Community Survey unless otherwise noted				** Rate calculations are based on available variables and certain traditional denominators were unavailable; Total Population was used as a denominator for these calculations

Public Services and Community Amenities: Provide a general description of the public services and community amenities in the vicinity of the Project Site.

Starling Senior Apartments is located at 0 Deep Lake Rd. in Lake Villa, IL (in Lake County) with an estimated population of 8,741. The public services and community amenities are all within two miles of the proposed site with a retail, governmental services, schools, church, restaurants, park, banking all within .76 mile. In addition, grocery, pharmacy, health care, library, post office and day care all within two miles.

								Overall Housing Unit Change				492			
SPAR Reviewer Comments / Notes:				This PPA proposes the demolition and new construction of 46 units to replace an existing and fully occupied property. According to the PPA the project is and will remain non age restricted but currently houses many elderly tenants. Plans include eliminating the "unpopular" studio units and replacing them with 1BR units. The new project will offer 7-30% AMI units and 39-60% AMI units. 44 of the 46 units will have PB subsidies. While the overall population in the PMA has declined, the elderly population has grown somewhat. IHDA and rent restricted housing shares are low, but the area shows natural affordability in general. Additionally, access to food could not be verified via the sponsors submitted materials or via the IHDA tool, so documentation explaining access to food will also be required.											
* All data collected from American Community Survey unless otherwise noted				** Rate calculations are based on available variables and certain traditional denominators were unavailable; Total Population was used as a denominator for these calculations

Provide a general description of the public services and community amenities in the vicinity of the Project Site. Limit response to 1,500 characters.

The building is close to public parks, schools, churches, government services including the post office, library, city hall and police department. Several grocery stores are in the area: Schnucks, Walmart, Shop-N-Save, and ALDI. Retail stores in the vicinity include Walmart and Family Dollar. Several dining options are nearby including Mama Mia's and Big Daddy's BBQ. The township transit station is located within easy walking distance and current bus routes pass in front of the site. The site is easily accessed off Interstate 255, Route 143 and W. Madison Avenue. Many downtown shops are within walking distance. As of 2019 the CT is NOT in a QCT; however, in 2020 the CT 4011 is a QCT. The site is in the Madison County CDBG target area with 51% LMI.

Characters remaining: 734

Incompatible Uses

Indicate if any of the following are located on or immediately adjacent to the Project Site:

No	Existing flood plain, wetlands, streams, ravines, drainage
No	Excessively steep slopes
No	High tension power lines
No	Sources of excessive lighting

Indicate if any of the following are located within 1/4 mile of the Project Site:

	Facility Name	Facility Address
No	Landfills, salvage yards, trash heap, dump pile, etc.	
No	Hazardous chemical or heavy manufacturing	
Yes	Railroad tracks	
No	Runway or runway clear zone or military airfield	
No	Treatment, storage, or disposal facility for hazardous, solid, or sewage waste	
No	Sources of noise that may exceed 70 decibels	
No	Prison or correctional facilities	
No	Sources of noxious odor	

If any incompatible uses are identified above, provide a general description of the incompatible use, its potential to impact the Project, and any efforts that will be undertaken to mitigate the impact. Limit response to 1,500 characters.

There are multiple railroad tracks to the west of the site, but the majority are no longer in use. The railroad tracks that are in operation veer toward the west away from the site. The railroad tracks are used by freight trains and Amtrak. There are trees on the west side of the property and along the railroad tracks that help reduce noise.

CR Triggered:								Households with HCVs 2020				24			
								Overall Housing Unit Change							
SPAR Reviewer Comments / Notes:				IHDA's market share is low and rent restricted housing in general is limited. However, the rental market appears naturally affordable, especially at the 60% AMI level with 73% of units affordable to that group. This "affordability" is also shown in the low rent burden of this area. While statistics show growth among the elderly population, it seems as though households are aging in place within this community, as the overall population is shrinking. Due to some of these concerns, we will want the Market Study submitted at application to specifically speak to need for this housing within the community. This is the condition of our approval.

Public Services and Community Amenities: Provide a general description of the public services and community amenities in the vicinity of the Project Site.

Lincoln Senior Flats is located right next to Abraham Lincoln Memorial Hospital in Lincoln, IL. The site has a walk score of 24, but it is actually very well connected for a rural location because it is just off the main thoroughfare. A hospital, pharmacy and bus stop are located within 0.25 mile radius of the site. A full service grocery store, retail store, school and bank are located within 0.5 mile radius of the site. A park, the Lincoln police department, several churches and a number of restaurants are located within 1 mile radius of the site. The only public Library, the closest day care facility and the main post office are located within 2 mile radius of the site and accessible by bus.

SPAR Reviewer Comments / Notes: This is an area that is clearly going through gentrification with an increase in college graduates, a significant increase in median incomes and obvious redevelopment when driving the area. It is also located close to significant employment and in an area granted proximate opportunity as it is literally across the street from a designated tract and a 5 min. walk from Google. Demographics show a stable population and decreasing poverty levels. Most interesting is the fact that while there is a significant amount of IHDA (30%) and rent restricted housing (48%) in the area, this appears to be the only affordable housing as ARUS data shows a lack of overall rental affordability. SPAR would like to point out that we have other projects (11260 New City-4% and 11621 Parkside 4-IAHTC) that are in the pipeline and are proposing additional IHDA non-elderly units. Since this area is showing a concentration of IHDA units we would require CR documentation that meets thresholds at application.

* All data collected from American Community Survey unless otherwise noted

		310 W Division St.
		540 N Dearborn St.
		755 N Larrabee St.
		1207 N Cleveland Ave.

Provide a general description of the public services and community amenities in the vicinity of the Project Site. Limit response to 1,500 characters.

Oak and Larrabee is located in the heart of the Near North Side neighborhood. It is minutes from restaurants, schools, retail, public transit, and much more. It is nestled between several beautiful parks and other natural attractions: Stanton Park to the North, Seward Park to the Northeast, Durso Playlot Park to the Southeast, and the Chicago River to the West. In addition to being close (0.7 mile walk) to free employment services at the Employment and Employment Services Office and numerous Churches which provide community outreach and after school programming, residents of Oak and Larrabee will have access to a multitude of services provided by Cabrini Green LAC Community Development Corporation. Cabrini Green LAC Community Development Corporation is a 15% owner of the development, and will receive developer fees to assist in providing services to residents. In addition to being close to several colleges and other adult educational facilities, Oak an Larrabee feeds into one of the highest performing elementary schools in the city - Jenner-Ogden Elementary. Moreover, Oak and Larrabee is only a quarter mile from public transit - making the entire city easily accessible. All in all, the proposed development site has an unbeatable location in the City of Chicago.

Incompatible Uses

Indicate if any of the following are located on or immediately adjacent to the Project Site: ss

No	Existing flood plain, wetlands, streams, ravines, drainage
No	Excessively steep slopes
No	High tension power lines
No	Sources of excessive lighting

Indicate if any of the following are located within 1/4 mile of the Project Site:

	Facility Name	Facility Address
No	Landfills, salvage yards, trash heap, dump pile, etc.	
No	Hazardous chemical or heavy manufacturing	
No	Railroad tracks	
No	Runway or runway clear zone or military airfield	
No	Treatment, storage, or disposal facility for hazardous, solid, or sewage waste	
No	Sources of noise that may exceed 70 decibels	
No	Prison or correctional facilities	
No	Sources of noxious odor	

If any incompatible uses are identified above, provide a general description of the incompatible use, its potential to impact the Project, and any efforts that will be undertaken to mitigate the impact. Limit response to 1,500 characters.

CR Triggered:	if renter % is > set-aside avg and IHDA conc is > 15% then tr		Overall Housing Unit Change								
SPAR Reviewer Comments / Notes:	Site is in a QCT, therefore CR will be required at application. Market overall is relatively weak. Issues with many indicators exist, but the decrease in population is cause for some concern as is the spike in vacancy. However, cost burdened is above county rate, and given the age of the housing stock, a lot of the natural affordability is likely the result of filtration. Given that the site plans to offer rental assistance to each unit, demand likely won't be an issue. Conditional approval due to QCT status.										
* All data collected from American Community Survey unless otherwise noted			** Rate calculations are based on available variables and certain traditional denominators were unavailable; Total Population was used as a denominator for these calculations								

Site

0.38	Day Care Facility	PALS Praise & Leadership Schools 700 NE Greenleaf St, Peoria, IL, 61603

Provide a general description of the public services and community amenities in the vicinity of the Project Site. Limit response to 1,500 characters.

The site is located in downtown Peoria and is near many amenities that would be relevant to a homeless population, including access to transportation, medical services and a pharmacy. Phoenix's offices are located not far from the site, where they provide additional services not provided directly on-site.

Characters remaining: 1188

Incompatible Uses - if applicable, please explain below.

Indicate if any of the following are located on or immediately adjacent to the Project Site:

- Existing flood plain, wetlands, streams, ravines, drainage - see checklist for additional documentation that may be required.
- Excessively steep slopes
- High tension power lines
- Sources of excessive lighting

Indicate if any of the following are located within 1/4 mile of the Project Site:

	Facility Name	Facility Address
<input type="checkbox"/>	Landfills, salvage yards, trash heap, dump pile, etc.	
<input type="checkbox"/>	Hazardous chemical or heavy manufacturing	
<input type="checkbox"/>	Railroad tracks	
<input type="checkbox"/>	Runway or runway clear zone or military airfield	
<input type="checkbox"/>	Treatment, storage, or disposal facility for hazardous, solid, or sewage waste	
<input checked="" type="checkbox"/>	Sources of noise that may exceed 70 decibels	Spaulding Ave and I-74
<input type="checkbox"/>	Prison or correctional facilities	
<input type="checkbox"/>	Sources of noxious odor	

If any incompatible uses, are identified above, provide a general description of the incompatible use, its potential to impact the Project, and any efforts that will be undertaken to mitigate the impact. Limit response to 1,500 characters.

The project is located near I-74. Rehab will take into account the noise and mitigate accordingly.
