To Whom It May Concern:

Our agency is submitting the annual body worn and in-car camera report and department policy. Below are the additional required details:

Number of Cameras in Use (BWC)- 53

Number of Cameras in Use (Squad)-13

Number of Officers who have used BWCs- 51

Technical Issues: This past year we had some database and storage issues but that has been resolved. The main issues we have with the cameras are batteries going bad and not lasting as long as they should. Normally Getac will replace the BWC if the battery life is far below what should be expected. We occasionally have BWCs that are unresponsive and will not sync. Getac will replace those. Other than that, most of the issues are due to operator errors.

Thank you,
