

## **A Summary of Fees in Fiscal Year 2025**

For fiscal year 2025, 106 state agencies, boards, and commissions submitted fee imposition reports to the Illinois Office of Comptroller. Of these agencies, 70 reported 1,693 fees generating \$14.017 billion in fee revenues, an increase of \$316 million, or 2.0%, over fiscal year 2024. Most agencies are authorized to levy fees and report fee revenues.

The accompanying chart lists the number of fees and the amount of fee revenues for each of the 70 agencies that generated and reported fee revenues in fiscal year 2025. Two agencies each collected more than \$3 billion in fee revenues, which combined made up 59.2% of the total reported fee revenues for fiscal year 2025: the Department of Healthcare and Family Services reported \$5.290 billion in fee revenues (37.7% of the fiscal year 2025 total) and the Secretary of State reported \$3.010 billion in fee revenues (21.5% of the fiscal year 2025 total). The three agencies reporting the most fee revenues and the state's nine public universities together collected \$12.861 billion, or 91.7% of total fee revenues for the fiscal year.

The nine state universities reported \$2.929 billion (20.9% of all fee revenues), and the Illinois State Toll Highway Authority reported \$1.632 billion in fee revenues (11.6% of the fiscal year 2025 total). The remaining agencies collected 8.3% of fee revenues, reporting \$1.157 billion in revenues. Of that amount, 18 agencies (excluding constitutional offices, universities, boards, and the three largest collecting agencies) reported collecting at least \$10 million in fee revenues, totaling \$984 million, or 7.0% of total fee revenues for the fiscal year. Other constitutional offices (not including the Secretary of State) reported \$14 million in fee revenues, or 0.1% of the total for the fiscal year.
