Not Corrected	The IDHS has created a spreadsheet with all federal expenditure data grouped by assistance listing numbers (ALN). The spreadsheet also contains a tab with only the major program expenditure data, which is compared the IDHS' SEFA totals. Any discrepancies between the reporting methodologies are identified and researched. (Completed 09/30/24)
2022-011	93.959	DHS	Block Grants for Prevention and Treatment of Substance Abuse	The Department did not prepare an accurate financial report for the Block Grants for Prevention and Treatment of Substance Abuse (SAPT) program. Additionally, the Department did not perform analytical or other procedures during the report preparation process to ensure amounts reported are reasonable in relation to previously reported information or expectations relative to current program activities.	Fully Corrected	
2022-012	21.027	DHS	COVID-19 – Coronavirus State and Local Fiscal Recovery Funds	The Department did not communicate required federal program information to subrecipients at the time of disbursement for the Coronavirus State and Local Fiscal Recovery Fund (SLFRF) program. Specifically, the auditors noted that the IDHS did not communication the assistance listing number (ALN) to the subrecipients at the time of the disbursements.	Fully Corrected	
2022-013	93.767 93.775/93.777/93.778	DHFS	Children's Health Insurance Program Medicaid Cluster	The Illinois Department of Healthcare and Family Services (DHFS) did not perform periodic audits of the accuracy, truthfulness, and completeness of the encounter and financial data submitted by, or on behalf of each Managed Care Organization (MCO) for the Children's Health Insurance Program (CHIP) and Medicaid Cluster programs during fiscal year 2023.	Not Corrected	The DHFS, in coordination with its External Quality Review Organization (EQRO), worked with the MCOs to conduct a validation audit of the MCOs and posted the final report on the DHFS Report Center line on September 28, 2023. The DHFS issued notices to the MCOs and required submission of GAAP/financial statement audits to be provided to the DHFS no later than July 31, 2023. The reports submitted by each MCO have been shared with the DHFS' financial team for review. Additionally, the DHFS created a policy document for the encounter and financial three-year audit cycle. (Completed 09/28/23)
2022-014	93.775/93.777/93.778	DHFS	Medicaid Cluster	The Illinois Department of Healthcare and Family Services (DHFS) did not report certain Medicaid Cluster expenditures on quarterly federal financial (CMS-64) reports in a timely manner.	Not Corrected	The Illinois Department of Human Services (DHS) and the DHS' Department of Innovation and Technology (DoIT) staff have implemented weekly reports on developmental disabilities (DD) waiver payment submissions to the DHFS to allow DHS staff information to review and timely identify any issues with the DD waiver submissions to the DHFS. The DHFS reviewed and revised its quarterly other agency Medicaid spending/federal revenue reporting, which is used to create the CMS-64. This report includes actual quarterly claim expenditure data and is distributed by the DHFS to other agencies and its staff for review each quarter. This report was redesigned to provide prior quarter/year comparisons to allow for more effective identification of problematic issues. Finally, the report's recipient list was updated to ensure appropriate distribution to the DHFS' staff and the other agencies. The DHFS' staff follows-up with other agency recipients to ensure the quarterly reports are reviewed and responses are communicated to the DHFS. (Completed 06/30/25)
2022-015	93.767 93.775/93.777/93.778	DHFS	Children's Health Insurance Program Medicaid Cluster	The Illinois Department of Healthcare and Family Services (DHFS) did not adequately screen providers of the Children's Health Insurance Program (CHIP) and the Medicaid Cluster programs to ensure that Medicaid providers were not on the USDHHS Office of the Inspector General's (OIG) List of Excluded Individuals/Entities (LEIE) at the time the vouchers for the related services performed were paid.	Not Corrected	The Illinois Medicaid Program Advanced Cloud Technology (IMPACT) system is used by the DHFS for the enrollment and screening of CHIP and Medicaid providers. On a monthly basis, IMPACT automatically checks providers enrolled within IMPACT to the LEIE to verify the provider is not on the LEIE. The IMPACT system is updated through quarterly system releases. As part of the 1.6 quarterly release, the DHFS' Provider Enrollment Services (PES) updated the system to address the monthly screening check box defect causing the issue. In the Lexis Nexis monthly job, as part of license information, the DHFS receives files from the American Board of Medical Specialties (ABMS), the Clinical Laboratory Improvement Amendments (CLIA), the Drug Enforcement Administration (DEA), and the NCPDP (National Council for Prescription Drug Programs (NCPDP) and other states (out-of-state license/medical license files). Only the corresponding license check boxes are checked for the provider. As an example, for a provider with an ABMS license, the corresponding ABMS check box would be checked. Furthermore, as part of sanction information, the DHFS receives a discipline file, which has the information from the Excluded Parties List System (EPLS), the LEIE, the Medicaid Services Administration (MSA), and other federal and state databases to ensure all are checked for active providers in a monthly batch. (Completed 03/31/23)
2022-016	93.767	DHFS	Children's Health Insurance Program Cluster	The Illinois Department of Healthcare and Family Services (DHFS) improperly continued providing benefits under the Children's Health Insurance Program (CHIP) program to individuals who were over the age of 19 prior to the start of the federal Public Health Emergency for COVID-19 (PHE) on March 13, 2020.	Not Corrected	The DHFS accepts this finding for the 19-year-olds identified as receiving assistance under the CHIP program prior to the onset of the federal PHE. Those receiving assistance during the PHE were allowable under the Centers for Medicare and Medicaid Services' Award Letter. CHIP eligibility for 19-year-olds was not allowable 14 months following the end of the PHE. These cases were redetermined in the State's federally required Unwinding Plan for which additional staff were hired and trained. The DHFS continues to review eligibility determinations for effectiveness and create a plan of action. Current data, as of April 2025, supports the success of the plan as these cases have decreased by 98%.

2022-020	93.323	IDPH	COVID-19 – Epidemiology and Laboratory Capacity for Infectious Diseases (ELC)	The Illinois Department of Public Health (IDPH) failed to report information required by the Federal Funding Accountability and Transparency Act (FFATA) for awards granted to subrecipients of the Immunization Cooperative Agreements (ICA) and the Epidemiology and Laboratory Capacity for Infectious Diseases (ELC) programs.	Not Corrected	The IDPH's Office of Performance Management (OPM) identified that there was a lack of compliance among grant managers in completing the required FFATA reporting and developed a Standard Operating Procedure (SOP) for FFATA reporting to address the gap and improve the process. The SOP was developed and tested from May through June 2023 and officially implemented in July 2023. The SOP was subsequently enhanced on July 31, 2024, to accurately reflect obligation/action dates. The new process involved downloading all award information from the grant management system, the Electronic Grants Administration & Management System (EGrAMS), and having the OPM conduct a monthly batch upload of the data. When the policy was implemented, the IDPH ensured that all awards from fiscal year 2020 onward were reported, and that going forward, all subawards would be submitted within the required timeframe. Additionally, the OPM discovered that the obligation/action dates on the reports were being automatically generated based on the dates the signed Uniform Grant Agreements (UGA) were uploaded into EGrAMS, instead of the actual dates the agreements were signed. To correct this, the OPM worked with EGrAMS to add a field where grant managers would manually enter the dates the awards were signed when uploading the UGAs. (Completed 07/31/24)
