## EXECUTIVE SUMMARY

The Chief Procurement Officer for Public Institutions of Higher Education (CPO-HE) works with the Illinois public institutions of higher education to meet their procurement needs free of undue influence through independent authority, oversight, and approval. The CPO-HE further works with the institutions to continually improve procurement policies and to establish best practices that recognize the specific needs of the institutions in relation to their role and importance to the State of Illinois.

### **Purpose**

Public Act 100-0043 established a common reporting date of November 1st for annual reports on cooperative purchases, exempt procurements, and contracts to small businesses. Although not required to be reported, we have included a report on emergency purchases and an update to the previously filed sole source procurement report in order to provide a more comprehensive report.

This Annual Report is filed electronically with the General Assembly, the Governor's Office, the Illinois State Library, and the Commission on Government Forecasting and Accountability. It can also be found on the CPO-HE website.

### **Background**

The Chief Procurement Officer for Public Institutions of Higher Education (CPO) exercises independent procurement authority under the Illinois Procurement Code (30 ILCS 500) on behalf of the nine public universities and the Illinois Mathematics and Science Academy (IMSA). Any reference to "universities" hereafter refers to the nine public universities and IMSA.

The CPO exercises this authority through State Purchasing Officers (SPOs) who work directly with the universities to meet their needs. By means of their statutory authority and independence, the CPO and SPOs help ensure that procurements made by the State universities are conducted in the most transparent and fair manner, comply with applicable laws, and are free from improper influence. We also promote the use of best practices in procurement and work to streamline purchasing policies and procedures. The CPO and SPOs each have a fiduciary duty to the State, and we all work to maximize value and assure public trust in the procurement process.

### **Members of the Chief Procurement Office for Higher Education**

During FY25, the office had twelve members, comprised of the CPO and a staff of eleven. The staff consists of: Deputy Chief Procurement Officer/SPO, General Counsel, ten SPOs, and Procurement Services Administrator.

The CPO and SPOs are required by statute to become certified and maintain certification under the Universal Public Purchasing Certification Council (UPPCC), or the Institute for Supply Management (ISM). Of the twelve members, ten hold the UPPCC certification. Of those certified, nine hold the “Certified Professional Public Buyer” (CPPB) designation, and one holds both the CPPB and the “Certified Public Procurement Officer” (CPPO) designation. In addition, one staff member holds the “Certified Purchasing Manager” (CPM) certification from ISM, and one staff member holds the “NIGP Certified Procurement Professional” designation through the National Institute of Governmental Purchasing.

### **Transaction Processing**

In FY25, the SPOs processed 1,910 transactions totaling just under approximately \$5.3 billion, an average of 191 transactions per SPO. This included approximately: \$5 billion in competitive procurements, \$1 billion in cooperative purchases (the vast majority were competitively procured), \$236 million in sole source procurements, and \$47.8 million in emergency purchases. The universities also made approximately \$640 million (not included in the total amount above) in purchases which are exempt from the Procurement Code. Small purchases (those not exceeding \$100,000) are processed by the universities and are most often awarded after seeking a minimum of three quotes.

Collecting this data is difficult because each of the universities have their own accounting system and method of collecting and storing the data. No waivers under Section 1-13(c) of the Procurement Code were received by the CPO.

### **50-57(b) Curability Waivers**

Public Act 103-0865, which became effective on January 1, 2025, states that “...The chief procurement officer shall report to the Governor and General Assembly, by no later than November 1 of each year, a summary of determinations for the previous fiscal year.” In FY24, zero waiver requests were received.

### **Initiatives**

We continuously strive to find ways to streamline the procurement process while maintaining integrity and transparency which are of critical importance. Over the past year, we have initiated a number of improvements to make procurement easier for both vendors and staff. In addition, we have attended a variety of outreach events.

- Continued to address the urgent procurement needs of the universities and the Illinois Mathematics & Science Academy.
- One member continued to serve on the Illinois Procurement Gateway (IPG) Management Team. The IPG is an online vendor portal used for gathering business information from vendors who wish to conduct business with Illinois' State agencies and universities.
- One member continued to volunteer with the National Association of Educational Procurement (NAEP).
- Provided Diversity and Inclusion in Procurement Training to CPO-HE staff and university staff.
- Presented to over 90 vendors during our Annual Small Business Presentation.
- Attended and presented at the annual Illinois Public Higher Education Cooperative Conference.
- Attended the National Institution of Governmental Purchasing Annual Virtual Conference.
- Attended Governors State University's Vendor Meet & Greet.
- Attended the Illinois Department of Transportation's Reverse Vendor Fair.
- Attended the State of Illinois Vendor Summit.
- Attended Business Enterprise Program (BEP) Training at Governors State University.
- Attended the University of Illinois Chicago Construction Summit.
- Provided Procurement 101 University Training, IFB Training & RFP Training to procurement staff at Chicago State University, Governors State University, Northern Illinois University & Northeastern Illinois University.
- Continued working on updating our solicitation documents, standardized forms, and JCAR rules.
- Continued meeting with the Commission on Equity and Inclusion (CEI) and the Procurement Policy Board (PPB) on a regular basis, as CEI and PPB are major stakeholders in our day-to-day business.

# **FY25 COOPERATIVE PURCHASING REPORT**

## COOPERATIVE PURCHASING SUMMARY

The Governmental Joint Purchasing Act (30 ILCS 525) authorizes the Chief Procurement Officer (CPO) to allow the purchase of personal property, supplies, and services jointly with a governmental unit of this state or another state, with a consortium of governmental entities of one or more other states, or to make purchases from a group purchasing organization as a member or affiliate of that organization. Additionally, Section 25-15 of the Illinois Procurement Code provides that the CPO may establish by rule a process to make non-governmental joint purchases.

Pursuant to Section 2 (a-15) of the Governmental Joint Purchasing Act, the CPO may also authorize “any governmental unit of [Illinois] to purchase or lease supplies under a contract which has been procured under the jurisdiction of the Illinois Procurement Code by a [state public university]. During FY25 (July 1, 2024 - June 30, 2025), the CPO received zero Governmental Joint Purchasing Contract Requests from any governmental units in Illinois.

This report describes cooperative purchasing by the public state universities for FY25 (July 1, 2024 - June 30, 2025). In FY25, the universities used 16 different cooperative purchasing organizations with a total approximate spend of \$1,064,481,586.

When utilizing cooperative purchasing, Illinois joins other states and government entities to 1) identify their common purchasing needs; and 2) combine their procurement and subject matter experts to secure best-in-class contracts. Fewer state resources are used to procure these contracts and they usually result in better pricing and term agreements due to leveraged buying power. The use of these cooperative contracts saves considerable staff time by making use of procurement activities already undertaken by others. The large volume of potential sales and spend with multiple jurisdictions can result in significant savings.

Every cooperative procurement request goes through a process of justification and review by the Chief Procurement Office prior to approval for use by the universities. Each university is responsible for their own contract execution and subsequent purchases from approved cooperative procurements. The process is designed to ensure that the cooperative award was conducted using open and fair competition and that the prices obtained are competitive in the market. This includes looking at use of businesses owned by minorities, women, and persons with disabilities as subcontractors.

When the State of Illinois is party to a joint purchase agreement, the State may act as a lead state or as a participant state. When the State of Illinois is the lead state, all joint purchases must be conducted in accordance with the Illinois Procurement Code. When a cooperative procurement is conducted by the Illinois Public Higher Education Cooperative (IPHEC), it is done on behalf of and for use by all of the institutions. All cooperative contracts must contain the provisions required by Illinois law and rule.

The tables below provide detail regarding these cooperative purchases as reported by the universities.

# **FY25 EMERGENCY PURCHASES REPORT**

## EMERGENCY PURCHASES SUMMARY

This report of emergency purchases is not required by statute, but we provide it alongside the reports required by the General Assembly to present a more comprehensive description of procurement practices.

In FY25 (July 1, 2024 – June 30, 2025), the universities submitted to the Chief Procurement Officer for Public Institutions of Higher Education (CPO) 34 emergency purchase transactions for publication in the Illinois Procurement Bulletin. The combined estimated value of all FY25 emergency purchase transactions was \$47,753,031.89. Of those 34 emergency contracts, 9 were finalized within FY25. The remaining 25 contracts, with an estimated value of \$43,905,402.03, should be completed in FY26. Therefore, final amounts for FY25 may be different than the reported estimates.

### Background Information

Most procurements conducted by the universities go through one of the competitive methods of source selection. However, the Illinois Procurement Code (30 ILCS 500/20-30) (Code) allows the universities to make emergency purchases without competitive sealed bidding or prior notice under certain specified conditions. These conditions include:

- Public health or safety was threatened
- Immediate repairs were needed to prevent further loss or damage to university property
- To prevent or minimize serious disruption in critical state services that affect health, safety, or collection of substantial state revenues
- Immediate action was warranted to ensure integrity of university records

As authorized by the Code, the CPO promulgated rules that set standards addressing “quick purchase” emergency procurements. Quick purchases are allowed in the following circumstances:

- Protecting health and safety of any person
- Items available on the spot market or at discounted prices were available for a limited time such that sound business judgment mandated a purchase immediately to take advantage of the availability and price

- Rare items, such as articles of historical value or art collections, are available for a limited time
- The opportunity to obtain entertainment, speakers, and athletic and other events or performances (not exempt under Section 1-13 of the Code) is available for a limited time
- Immediate action is necessary to avoid lapsing or loss of federal or donated funds

It also stipulates that the term of the emergency purchase shall be limited to the time reasonably needed for a competitive procurement, not to exceed 90 calendar days. A contract may be extended beyond 90 calendar days only if the CPO determines additional time is necessary and that the contract scope and duration are limited to the emergency.

The statute requires that public notice of each emergency award be provided to the Procurement Policy Board (PPB) and the Commission on Equity and Inclusion (CEI) within 5 calendar days of the award and 7 days after the extension is executed.

Although not subject to formal competition, the universities and the Illinois Mathematics and Science Academy (IMSA) must submit substantial justification to use the emergency process and work with the State Purchasing Officer (SPO) to determine whether a need is appropriate for emergency purchase treatment. If we find in the affirmative, we provide notice to the PPB and CEI and publish it in the online electronic Bulletin no later than 5 calendar days after the contract is awarded. We also file statements with the PPB, CEI, and the Auditor General within 10 calendar days after the procurement setting forth the amount expended, the name of the contractor involved, and the conditions and circumstances requiring the emergency procurement.

## Emergency Purchases - Started & Finalized in FY25

## Emergency Purchases - Awarded in FY25 But Not Yet Finalized

When the final cost of a contract is not yet known, the Code allows for emergency contracts to be entered into based on estimated costs. In such cases, the cost of an emergency contract may not be finalized until up to 90 days after award (or longer if the CPO certifies more time is required to meet the emergency need). The chart below reflects the quantity and dollar value of contracts that were awarded in FY25 but whose final cost has yet to be reported.

**FY25 PROCUREMENT  
CODE EXEMPTIONS  
REPORT**

# PROCUREMENT CODE EXEMPTIONS SUMMARY

This report provides a summary of all procurements exempt from the Illinois Procurement Code (Code) published in the Higher Education volume of the Illinois Procurement Bulletin (Bulletin) for the time period July 1, 2024 – June 30, 2025 (FY25) by the universities. There were 777 published exemptions valued at approximately \$640,118,668.75. Sections 1-10 and 1-13 of the Code (30 ILCS 500) exempt certain categories of procurements from the requirements of the Code. Although exempt, the categories in these Sections of the Code must be posted in the Bulletin to provide transparency. The statistical data is generated based on contract information posted to the Bulletin by the universities. The Bulletin was originally designed in 1998 to display procurement notices and has limited ability to produce reports on spend. However, the information in this report is an accurate reflection of the exemptions that were posted to the Bulletin.

## FY25 Exemptions by Justification Type

| Exemption Category   | Number Transactions | Dollar Value      | Average \$ Per Transaction | % of Total Transactions |
|--|---------------------|-------------------|----------------------------|-------------------------|
| This purchase is exempt from the usual selection processes of the Procurement Code because the procurement expenditure is for contracts between the State and governments. [30 ILCS 500/1-10(b)(1)]  | 10                  | \$ 5,606,414.62   | \$ 560,641.46              | 1.2870%                 |
| This purchase is exempt from the usual selection processes of the Procurement Code because the procurement expenditure is for grants, except for the filing requirements of Section 20-80.   | 1                   | \$ 27,900.00      | \$ 27,900.00               | 0.1287%                 |
| This purchase is exempt from the usual selection processes of the Procurement Code because the procurement expenditure is for hiring an individual as an employee by contract directly with the individual. [30 ILCS 500/1-10(b)(4)]   | 2                   | \$ 200,300.00     | \$ 100,150.00              | 0.2574%                 |
| This purchase is exempt from the usual selection processes of the Procurement Code because the procurement expenditure is for a real estate property purchase valued over \$25,000. [30 ILCS 500/1-10(b)(6)]   | 15                  | \$ 29,684,147.11  | \$ 1,978,943.14            | 1.9305%                 |
| This purchase is exempt from the usual selection processes of the Procurement Code because the procurement expenditure is for anticipated litigation, enforcement actions, or investigations. [30 ILCS 500/1-10(b)(7)]   | 27                  | \$ 5,284,576.00   | \$ 195,725.04              | 3.4749%                 |
| This purchase is exempt from the usual selection processes of the Procurement Code because the procurement expenditure is for membership in professional, academic, research, or athletic organizations on behalf of a public institution of higher education, an employee of a public institution of higher education, or a student at a public institution of higher education. [30 ILCS 500/1-13(b)(1)]     | 24                  | \$ 7,285,824.51   | \$ 303,576.02              | 3.0888%                 |
| This purchase is exempt from the usual selection processes of the Procurement Code because the procurement expenditure is for events or activities paid for exclusively by revenues generated by the event or activity, gifts, or donations for the event or activity, private grants, or any combination thereof. [30 ILCS 500/1-13(b)(2)]  | 138                 | \$ 80,766,630.07  | \$ 585,265.44              | 17.7606%                |
| This purchase is exempt from the usual selection processes of the Procurement Code because the procurement expenditure is for events or activities for which the use of specific potential contractors is mandated or identified by the sponsor of the event or activity, provided that the sponsor is providing a majority of the funding for the event or activity. [30 ILCS 500/1-13(b)(3)]                 | 9                   | \$ 2,377,155.00   | \$ 264,128.33              | 1.1583%                 |
| This purchase is exempt from the usual selection processes of the Procurement Code because the procurement expenditure is for athletic, artistic or musical services, performances, events, or productions by or for a public institution of higher education. [30 ILCS 500/1-13(b)(4)]  | 32                  | \$ 10,099,423.75  | \$ 315,606.99              | 4.1184%                 |
| This purchase is exempt from the usual selection processes of the Procurement Code because the procurement expenditure is for periodicals, books, subscriptions, database licenses, and other publications procured for use by a university library or academic department, except for expenditures related to procuring textbooks for student use or materials for resale or rental. # **FY25 SMALL BUSINESS REPORT**

## SMALL BUSINESS SUMMARY

Sections 45-45, 45-57 and 45-90 of the Illinois Procurement Code (Code) require reporting of certain information regarding contracts with small businesses. The following is the summary for the FY25 data detailed later in this report:

|   |                 |
|---|-----------------|
| Total Contracts to All Businesses   | 231,171         |
| Total Contracts to Certified Small Businesses   | 2,840           |
| Total Available Dollars Subject to Goal   | \$2,106,525,165 |
| Goal to Award to Small Businesses (10% of total)  | \$210,652,516   |
| Value of Awards to Certified Small Businesses   | \$42,381,027    |
| % Value of Contracts Awarded to Small Businesses to the Total Available Dollars Subject to the Goal | 2.01%           |
| Average Value of Contracts Awarded to Small Businesses  | \$14,923        |

### Background Information

Section 45-90 of the Illinois Procurement Code (30 ILCS 500/45-90) sets a goal that not less than 10% of the value of all contracts be awarded to small businesses. The Chief Procurement Officer (CPO) is responsible for reviewing and approving university small business compliance plans, monitoring university progress, and reporting on their outcomes.

The public universities each use their own internal resources, along with the shared database of certified small businesses, to determine the number of small businesses that received contracts and the value of those contracts. Each university maintains their own separate contract and accounting systems and each collects data and extracts that data from their systems differently. With no central or uniform system of data collection and extraction, it is a challenge to obtain and accurately report this information. Consequently, the overall results do not show a true reflection of the level of contracting with certified small businesses by the State universities. It is important to note that this report shows only contracting activity with firms certified in the Small Business database.

## FY25 Small Business Spend - Statistical Overview

All information within this report is self-reported by the public universities to the CPO. In the table below, "Southern Illinois University" includes spend by SIU Carbondale, SIU Edwardsville, and SIU School of Medicine campuses. Similarly, "University of Illinois" includes spend by the University of Illinois campuses at Urbana-Champaign, Chicago, and Springfield.

## Other Small Business Reporting Requirements

### Small Businesses

The Chief Procurement Office - Higher Education (CPO-HE) encourages universities to utilize small businesses whenever possible and the universities do contract with many small business vendors. In recognition of the policy of the State to promote the use of small businesses, we will be providing a larger focus on small business matters and have added language to proposed rules to ensure competition among small businesses. State Purchasing Officers (SPOs) attend outreach events whenever possible and talk to small businesses, Business Enterprise Program (BEP) businesses, and Veteran-owned small businesses (VOSB) about the benefits of doing business with the universities. They also help vendors learn about the various registration processes as well as the procurement process.

### Veteran-Owned & Service-Disabled Veteran-Owned Small Businesses

It is the goal of the State to promote contracting with qualified Veteran-owned small businesses and service-disabled Veteran-owned small businesses (SDVOSB). Not less than 3% of the total dollar amount of State contracts is established as a goal to be awarded to VOSB and SDVOSB. However, with such a small pool of certified Veteran-owned businesses, it is difficult to meet this goal. The universities attempt to contract with these businesses whenever possible.

They also hold and attend outreach events to assist in widening the pool. The data below is self-reported by the universities, similar to the reporting of other small business contracts.

**FY25 SOLE SOURCE  
PROCUREMENTS  
REPORT**

## EXECUTIVE SUMMARY

The Chief Procurement Officer for Public Institutions of Higher Education (CPO-HE) works with the Illinois public institutions of higher education to meet their procurement needs free of undue influence through independent authority, oversight, and approval. The CPO-HE further works with the institutions to continually improve procurement policies and to establish best practices that recognize the specific needs of the institutions in relation to their role and importance to the State of Illinois.

The Illinois Procurement Code (Code) requires that each Chief Procurement Officer issue a report on sole source contracts on a fiscal year basis (30 ILCS 500/20-25). This report is for FY25 (July 1, 2024 – June 30, 2025). This report is provided to the Illinois State Library, Commission on Government Forecasting and Accountability, the Governor, General Assembly, and published to the Chief Procurement Officer's website.

The Code allows contracting without formal competition when there is only one, or only one economically feasible, source for the needed supply or service. The universities and the Illinois Mathematics and Science Academy (IMSA) are required to submit substantial justification and work with the State Purchasing Officer to determine whether a particular need is appropriate for sole source treatment. If approved for this method, the Chief Procurement Office provides a 14-day public notice of intent to contract on a sole source basis and an opportunity for any interested party to request a public hearing. This process allows any vendor to dispute the sole source declaration and provide evidence to that effect. Any member of the public may also request a hearing to voice concerns with the intent.

The background features a gradient of blue tones, transitioning from a light, almost white blue at the top to a deep, dark blue at the bottom. Overlaid on this gradient are several large, flowing, curved shapes in various shades of blue, creating a sense of movement and depth. These shapes appear to be layered, with some in the foreground and others receding into the background. The overall aesthetic is clean, modern, and professional.
