<i>Vienna Correctional Center</i>	322
<i>Western Illinois Correctional Center</i>	330

The Office of Constituent Services serves as a bridge between the Illinois Department of Corrections (“Department”), families, and the community at large, acting as a liaison between the Department and the public in addressing concerns received. This report was compiled pursuant to the requirements outlined in 730 ILCS 5/3-7-2(i)(2) (Public Act 102-108) which went into effect on June 10, 2022.

The reporting period for this General Assembly report is from July 1, 2024, through June 30, 2025¹. During this reporting period, the Constituent Services Unit received approximately 19,739 concerns. These concerns were received via webmaster, email, phone, and letters. This report indicates the nature of the concerns received, and in addition to the requirements outlined in Public Act 102-108, includes subcategories to better track and identify concerns received. This report captures how those concerns were received, the number of concerns, concerns received by facility, and how the concerns were resolved or forwarded for further handling.

The Constituent Services Unit is comprised of a Community Outreach Administrator, a Community Outreach Specialist (Family Liaison), and an Administrative Assistant II. Our Family Liaison serves as a central point of contact between the public and staff within the Department to assist in addressing concerns raised. The Liaison contacts facilities and units within the Department notifying them of concerns received and requesting the concerns be addressed. The Community Outreach Administrator works alongside the Family Liaison in developing communication processes between the Department, constituents, families, and friends. Our Administrative Assistant II provides support and expertise to the Unit. These team members work collaboratively and diligently to forward concerns received by the Unit to the appropriate facilities and units in a timely manner. The unit typically responding to constituents within one to two business days.

Upon receipt of a concern, the Unit provides a response back to the constituent, oftentimes using the same method of communication that was initiated by the constituent, while also following up with the constituent for more information as necessary. Additionally, in responding to concerns, the Unit provides information tailored specifically to the issue raised. This information is derived from the knowledge this Unit has in the day-to-day operations of the Department, as well as knowledge of its policy and procedures. Where the Unit is unable to disclose information due to HIPAA and/or other confidentiality laws, generalized information relevant to the constituent’s concern is provided, and the concern is forwarded to the appropriate facility and/or units for review and handling.

Approximately twenty-five (25) concerns received by the Unit were referred to the Department’s Internal Affairs and Investigation Unit for review. These concerns centered on the safety and security of Individuals in Custody, staff, claims of excessive force, security threat groups, and staff conduct. Upon forwarding these concerns, the Unit received confirmation from Internal Affairs that these concerns were received and would be reviewed and handled pursuant to policy and procedure. Moreover, constituents were also informed that their concerns had been received and forwarded to the appropriate unit for review and handling. Of the twenty-five (25) concerns that were forwarded, twenty-one (21) were found to be unsubstantiated, two (2) were substantiated, and two (2) are currently under review.

¹ 730 ILCS 5/3-7- 2(i)(2), requires that the Department prepare an annual report regarding the activities of the Constituent Services Unit point of contact, and submit it to the Governor and General Assembly by January 1 of each year. The statute is silent as to whether this report is to be based on a fiscal year end or a calendar year end. In order to comply with the statute, the Department provided the Constituent Services Unit data to the Governor’s Office and General Assembly on a fiscal year end beginning January 1, 2025. For this year’s report, the Department continues to report data on a fiscal-year basis.

To increase our outreach efforts, our staff team visited the Menard Correctional Center, Lincoln Correctional Center, Logan Correctional Center, and the Decatur Correctional Center. The purpose of these visits was to view the facilities and their visiting areas while also learning the day-to-day operations of the facility. Additionally, the unit used these visits as an opportunity to meet with individuals in custody and explain both what the Constituent Services Unit is and how the unit works to provide responses to their loved ones. The unit also heard from the individuals in custody regarding how policy implementation impacts them and received feedback on areas of improvement. Our Family Liaison has also been very instrumental with convening stakeholder engagement in partnership with IDOC's Statewide Advocacy Liaison. Together they have engaged with organizations such as Restore Justice, the John Howard Association, gathering their concerns and working to improve communication, family reunification, visitation, and other raised concerns.
