Ref: 2025 BWC / In-Car Camera Reports
From: Chief Coy Cornett

The Paxton Police Department consist of 8 full-time officers (1 Deployed) and 2 part-time officers. The Paxton Police Department started its Body Worn Camera Program in the summer of 2018. We currently have 7 WatchGuard Vista BWC's, 4 WatchGuard 4RE In-Car Cameras, 4 Panasonic i-Pro 4000 BWC's, and 4 Panasonic i-Pro 4000 In-Car Cameras. We are slowly fading out the WatchGuard Systems as they are showing their age.

This last spring we received a grant from ILETSB for reimbursement for 2 Panasonic i-Pro 4000 BWC's and 2 Panasonic i-Pro In-Car Cameras. We re-invested the grant money and purchased 2 additional complete Panasonic i-Pro Systems.

All our BWC's and In-Car Camera Systems download to our onsite storage system. We currently use an 8 TB NAS System. We have ordered a new 64 TB NAS System which will assist with storage. This NAS System should be up and running soon.

When time permits, I check the programs for any issues. Make sure we maintain enough storage space in the NAS Unit. Confirm arrest videos or flagged events are being downloaded for evidentiary purposes. If we receive complaints or have issues, I am always the person who reviews the videos and act if needed. I also review and redact videos per statue for all FOIA's.

If any further information is needed, feel free to contact me.
