The Metropolitan Water Reclamation District Police Department is comprised of sixty-three sworn Police Officers who all utilize body worn cameras (BWC). That includes the Chief of Police, three Lieutenants, nine Sergeants, and fifty Patrol Officers. We currently have seventy body cameras being utilized by our department. We have not had any technical issues reported during the 2025 calendar year. Supervisors will review BWC footage as needed during normal day-to-day operations as well as conducting a randomized monthly check. Nineteen officers are selected at random by a Microsoft Excel formula with all findings being documented via email and with notes added to the spreadsheet. A monthly audit comparing our police reports to saved BWC footage is also conducted to ensure that officers are activating them as required and that retention guidelines are followed. This information is also documented via email with notes in an excel spreadsheet. This concludes our annual report for 2025.

Thank you,
Juan C. Saucedo
Police Lieutenant
