SENATOR SIMMONS:

For an announcement.

PRESIDENT HARMON:

Please state your announcement.

SENATOR SIMMONS:

Thank you, Mr. President. I just wanted to rise today to honor Mother's Day. I think this is the last day that we will all be together before Sunday. And, you know, we love our mothers. Mothers make the world go round. I am a proud and unapologetic mama's boy. And so, I had to take the opportunity to celebrate not just my mother, but all of the mothers that make it possible for us to be here and to do the work that we do. And of course, for those of us whose -- who mothers are maybe not our biological mothers but are adopted parents or caretakers or people in the community, let's celebrate them this weekend too. Let's make sure they feel that love. And finally, just make sure for those of us

that maybe don't have good relationships with our mother, let's keep them in mind too, because of course that is a part of the human experience. Let's celebrate our moms. Thank you.

We've got Matthew Kuhns, who runs my Effingham office, and Jenna Harris, who runs my Litchfield office. They really work hard every day, and they usually watch all of us live while they're working. So, it's interesting for them to actually see us in real life, which is a lot of fun. But they do a lot of great work on behalf of the people of the 54th District and on behalf of the people of the State of Illinois. So, if you could please give them a -- a warm welcome. I would appreciate it.

Senator Simmons, on your bill.

SENATOR SIMMONS:

Thank you very much, Mr. President. Senate Bill 2442, as amended, would set up a scenario where hospital may not bill an uninsured patient that requires health care services if it determines through its financial assistance screening process, that the patient has a household income that qualifies the person for a free care under the Hospital Uninsured Patient Discount Act. If the patient is deemed eligible for public health insurance, to be specific, that would be 200% of the federal poverty level, a cap thereof or any other insurance product certified by the Department of Insurance. The hospital shall provide information to the patient about how the patient could apply for the insurance program. Mr. President, this is an excellent piece of legislation. It will ensure that people who are getting bills from hospitals that should not get them should be enrolled in Medicaid or should be enrolled to some form of charity care, are not getting billed and being dissuaded from actually pursuing a follow up care, preventative care, and of course, specialty care. I became aware of this issue from complaints that I get in my district from people who are lower income, who get bills and are frankly afraid to go to the hospital. So, I want to thank, Chairman Napoleon Harris for working with me and supporting me and helping me to sit down with the Hospital Association to negotiate this piece of legislation. I appreciate his leadership. And, of course, I want to thank the Illinois Hospital Association for working diligently with me to get us to this point. And with that, I'll take any questions. Thank you.

SENATOR LIGHTFORD:

Thank you, Mr. President. Ladies and Gentlemen of the Senate, this is a data collection bill, an effort to ensure that we have robust information. The data collection that was created in 2009 hasn't really kept up with what we've been trying to accomplish. So, it does just a couple things. It modernizes current demographic data collections, classifications. It changes -- it replaces, updates, if needed, of demographic classification that is used every five years. It gives certain exemptions to agencies receiving federal funds, and it collects sexual orientation and gender identity data from minors. I'd be happy to answer questions.

Thank you, Mr. President. This bill closes a loophole in insurance coverage when it comes to medically necessary care for the jaw due to accident or disease. This comes from a constituent of Senator Syverson, who had jaw cancer and his jaw was covered, but not the teeth replacement. And so, this closes that loophole. The amendment simply changes the effective date. Again, there's no opposition to this legislation, and I ask for your support.

To the bill, Senator.

SENATOR SYVERSON:

I just want to thank the sponsor for working with us on this to close this loophole. This is a coverage that every policy out there covers, that if someone loses their jaw due to cancer or an accident, that teeth are part of the jaw and should be covered. Blue cross, for whatever reason, found some loophole to get around from having to cover this. Again, even though every other policy covers it this clarifies it that -- if someone's going through that problem, that teeth are included as part of a jaw. So, I want to thank the sponsor for help on getting this clarification done.

Thank you, Senator. Seeing no further discussion. Senator Fine, do you want to close? Senator Fine.

This resolution acts as a reminder and a call to action for all Illinoisans to take a step back from the endless scrolling that I even find myself doing at

times and rededicate that time to real world connections with families and friends. This is especially important for our youth, as research has shown how social media exacerbates issues such as anxiety, depression, eating disorders, and feelings of inadequacy. Findings also align with disclosures of multiple whistleblowers who have testified before US Congress shedding light on the concerning practices within these platforms. Last year, the US Surgeon General issued a report saying teens who use social media for more than three hours a day doubles the risk of depression and anxiety symptoms, and an extremely concerning statistic when the current average amount of time kids use social media is three and a half hours a day. By setting aside a dedicated day to step away from the digital world and reengage with the world around us, we aim to foster healthier habits, deeper connections, and a more balanced approach to online presence. I urge each of you to unite in supporting this resolution. By doing so, we will take a significant step towards reclaiming our time, focus, and overall well-being. Thank you.
